

## Screening Criteria

---

For more details on each specific criterion, proceed to the next page.

### Funding

- All project funding is secured through a resolution/ordinance, funding agency programming action or grant award/grant agreement (except for Solutions for Congested Corridors or Trade Corridor Enhancement Program)
- One-to-one funding match of non-California Transportation Commission (CTC) controlled funding

### Project Phase and Timeline

- Project is seeking construction funding only
- Environmental clearance is complete or will be complete within 6-months of CTC adoption of program
  - Clearance Type:
  - Clearance Date:
- Negative environmental/community impacts will be avoided or mitigated
- Construction can begin no later than December 31, 2023
  - Construction Start Date:

## Funding

---

- ✓ All project funding is secured through a resolution/ordinance, funding agency programming action or grant award/grant agreement (except for SCC and TCEP funds)
- ✓ One-to-one funding match of non-CTC controlled funding

The CTC will regard funds as committed when they are programmed by the CTC or when the applicant with discretionary authority over the funds has made its commitment to the project by ordinance or resolution. For federal formula funds, including Regional Surface Transportation Program, Congestion Mitigation and Air Quality, and federal formula transit funds, the commitment may be by federal Transportation Improvement Program adoption. For federal discretionary funds, the commitment may be by federal approval of a full funding grant agreement or by grant approval. Uncommitted funds may only be from the following competitive programs:

- Solutions for Congested Corridors Program
- Trade Corridor Enhancement Program

Projects funded from the Local Partnership Competitive Program will require at least a one-to-one match of private, local, federal, or state funds. For purposes of calculating the required match, the CTC will only consider funds that are not allocated by the CTC on a project specific basis, with exception of State Transportation Improvement Program funding.

## Project Phase and Timeline

---

- ✓ Project is seeking construction funding only
- ✓ Environmental clearance is complete or will be complete within 6-months of CTC adoption of program
- ✓ Negative environmental/community impacts will be avoided or mitigated
- ✓ Construction can begin no later than December 31, 2023

Local Partnership Competitive Program will only fund the construction component of a capital project, except for those projects expected to be delivered using the design-build method, where a portion of the funds may be in design. The project must start construction by December, 31, 2023. A project will be considered for funding if at time of adoption, the project has completed a project level environmental process in accordance with California Environmental Quality Act (CEQA) and, if the project is federalized, the National Environmental Policy Act (NEPA). A project may also be considered for funding if at time of adoption it has completed the final draft of a project level environmental document in accordance with CEQA and if applicable, NEPA. All environmental clearance must be completed within 6 months of program adoption. The project must also demonstrate negative environmental/community impacts will be avoided or mitigated.
