Director Matsumoto said that she was not in favor of surface parking. She suggested combining a parking structure with a daycare center.

Director Groom asked if 60 to 80 parking stalls were adequate. Ms. Sharma said only around 10 percent of riders park at the station, based upon an MTC (Metropolitan Transportation Commission) survey.

Director Romero asked if station usage was projected to increase once electrification is completed, and Ms. Sharma concurred.
In response to a question on how parking demand was being handled, Ms. Sharma said they were reviewing the MTC survey.

Vice Chair Beach asked about the process for obtaining public input on the project. Ms. Sharma said they would hold a community outreach meeting at the end of August. Vice Chair Beach asked about the parking proposal. Ms. Sharma said that parking would be discussed at the community outreach meeting.

City of Burlingame Staff Comment:
- Donna Colson, Mayor, noted that Broadway Burlingame was the most dangerous intersection in California. She said she wanted to put more emphasis on sidewalks than on parking lots.
- Syed Murtuza, Director of Public Works, emphasized the large scope of the project and that the City is depending on the TA's help. He added that it would have a big impact on public health and safety.

Public Comment:
- Drew requested more information about how the project aligns with the Caltrain Business Plan.
- Rich Hedges, San Mateo, reiterated the dangerousness of the current at-grade crossing.

Caltrain Business Plan Update
Sebastian Petty, Director, Caltrain Policy Development, gave a presentation on the latest update of the Caltrain Business Plan.

Ms. Fromson discussed the outreach activities.

Vice Chair Beach asked about the financial impact on Caltrain. Mr. Petty discussed how that information would be disseminated.

Mr. Hartnett said there would be a presentation at the August Caltrain Board meeting with a potential decision at the September Board meeting. He added that it would be better to have additional time for the Board to make that decision. He said that Caltrain is currently struggling with maintaining its current State of Good Repair (SOGR). He said in the future, Caltrain would need an external source of dedicated tax funds to support the system.

Vice Chair Beach asked if they were seeking input on the different growth scenarios. Mr. Petty said that the full scenario is not ready and that more information will become available in the future.

Director Romero said that Caltrain has been primarily a CBD (central business district) service. He said he felt that Caltrain should aim for the highest level of service. He noted that $10 billion in grade separations is equal to $250 million per mile.
Public Comment:
- Drew thanked Mr. Petty for clarifications about lanes in his presentation. He added that trains from the Dumbarton Corridor could go north or south from the Redwood City/Fair Oaks junction.

State and Federal Legislative Update
Ms. Fromson briefly summarized highlights of recent federal and state legislation.
She said that there was an unsuccessful meeting between President Trump and the Democrats on May 22 about the infrastructure bill. She noted that the appropriation bills are moving nonetheless.
She said that the FAA (Federal Aviation Administration) is attempting to change the process where tax revenue generated by airports will be directed back to the airports instead of to areas designated by local expenditure plans. She said that legislation is being drafted to challenge this.
