Subject: I'm opposed to the current design of the county TA bike project grant
Date: Monday, November 02, 2020 12:09:58 PM

As a long-time bike rider in San Mateo, I am writing to ask that you oppose the Hillsdale Caltrain Station Bicycle Access Gap Closure Project (City of San Mateo) as currently designed. While I strongly want to see the El Camino Real crossing completed, it needs a redesign. It creates a safety hazard to the east of the project area - bicyclists could be injured or even die because of the lack of adequate view.

The current proposal creates a dire safety hazard just east of the project area that could result in injury or deaths to bicyclists. Bicyclists and buses cannot see each other, and signage and paint are not adequate to address this issue.

I support moving bicycle traffic to the south side of the road to ensure that bicyclists can see better and avoid collisions.

Thank you for working on improving bicycle infrastructure, but please make sure that the design is safe!
