[Celebrate Caltrain's first electric train](#)

## Save the Date!

Join us in welcoming our first electric train home.

Saturday, September 24, 2022  
San Francisco Station  
700 4th Street

San Francisco, CA 94107  
Speeches at 2:00 p.m.  
Tour of train at 3:00 p.m.

[RSVP Here](#)

Event by invitation only.

Change is coming. The future is worth it.

Caltrain Electrification has been under construction since 2017, building California's first electrified commuter rail and the West's first diesel to electric rail system. It will transform the way people travel along the 51 mile Caltrain-owned corridor between San Francisco and Silicon Valley. The overhead contact system will be compatible with future High-Speed Rail on the corridor, and high-performance electric trains that better match the needs of the corridor will replace 75% of Caltrain's aging diesel fleet. The project will provide faster, safer, more frequent service while mitigating climate change and enhancing equity and access for all communities.

This is a historic change for a railroad that has served passengers for over 160 years and we hope you can join us at this celebration.

Thank you to our project funders.
