December 22, 2023

To the Board of Directors of the San Mateo County Transportation Authority, and the Citizens of San Mateo County San Carlos, California

Annual Comprehensive Financial Report Year Ended June 30, 2023

We are pleased to present the Annual Comprehensive Financial Report (ACFR) of the San Mateo County Transportation Authority (Transportation Authority) for the Fiscal Year July 1, 2022, through June 30, 2023. This transmittal letter includes the formal transmittal of the ACFR, a profile of the Transportation Authority, information useful in assessing the government's economic condition, awards, and acknowledgements. Readers desiring an analytical overview of the basic financial statements or the Transportation Authority's financial activities may refer to the Management's Discussion and Analysis in the Financial Section.

Management assumes sole responsibility for the information contained in this report, including its presentation and the adequacy of its disclosures. To the best of our knowledge, this report is complete and reliable in all material respects. To provide a reasonable basis for making this representation, we have established a comprehensive system of internal controls designed to protect the Transportation Authority's assets from loss, to identify and record transactions accurately and to compile the information necessary to produce financial statements in conformity with generally accepted accounting principles (GAAP). Because the cost of internal controls should not exceed the likely benefits, the Transportation Authority's internal control system intends to provide reasonable, but not absolute, assurance that the financial statements are free from material misstatement.

To test the performance of the internal control system, the Transportation Authority contracted independent auditing services from Eide Bailly LLP, a certified public accounting firm licensed to practice in the State of California. The auditor expressed an opinion that the Transportation Authority's financial statements are fairly stated in all material respects and in compliance with accounting principles generally accepted in the United States. This conclusion is the most favorable kind and is commonly known as an "unmodified" or "clean" opinion.

i

Organizational Profile

Basic Information

San Mateo County, with a population of over 764,442, is located on a peninsula south of the City and County of San Francisco, bordered on the west by the Pacific Ocean, on the east by San Francisco Bay and on the south by the counties of Santa Clara and Santa Cruz. The voters of San Mateo County approved the creation of the Transportation Authority pursuant to the Bay Area County Traffic and Transportation Funding Act in June 1988. This Measure A vote authorized a one-half cent county-wide sales tax levy. The Transportation Authority programs and allocates sales tax revenues to designated project sponsors that are responsible for delivering a broad spectrum of transportation projects and programs pursuant to a Transportation Expenditure Plan over a period of 20 years. In November 2004, the voters reauthorized the levy of the sales tax with a new publicly developed Expenditure Plan containing transportation programs and projects to be implemented over an additional 25 years beyond the original expiration date of December 31, 2008. The 2004 Transportation Expenditure Plan (TEP) includes six program categories including:

- 1. Transit
- 2. Highways
- 3. Local Streets/Transportation
- 4. Grade Separations
- 5. Pedestrian and Bicycle
- 6. Alternative Congestion Relief Programs

In November 2018, San Mateo County voters approved Measure W, another sales tax measure that provides an additional half-cent transportation sales tax for 30 years to fund countywide transportation and traffic congestion solutions in San Mateo County. The San Mateo County Transit District (District) imposes the tax and administers the investments in the County Public Transportation Systems Program Category in the associated Measure W Congestion Relief Plan, which represents 50% of the proceeds. Measure W also provides that the District may designate the Transportation Authority to administer the other half of the revenues, which it has done. As a result of this designation, the Transportation Authority administers the remaining 50% of Measure W sales tax proceeds in the following five categories:

- 1. Countywide Highway Congestion Improvements
- 2. Local Safety, Pothole and Congestion Relief Improvements
- 3. Grade Separations
- 4. Bicycle and Pedestrian Improvements
- 5. Regional Transit Connections

In total, the Transportation Authority programs and appropriates funds for ¾-cent sales tax; half-cent from the sales tax Measure A reauthorized in 2004, and ¼-cent from the Measure W sales tax enacted in 2018.

The 2004 Measure A TEP requires the Transportation Authority to develop and adopt a Strategic Plan and that it be updated at least once every five years. The Measure W TEP, otherwise known as the San Mateo County Congestion Relief Plan, also requires the Transportation Authority to prepare a Strategic Plan with broad-based public outreach. This plan, which was approved in December 2019 by the Transportation Authority Board of Directors, provides the policy guidance for the implementation of both the Measure A and Measure W transportation sales tax programs that the Transportation Authority is tasked with administering over the five years from 2020 to 2024.

Whenever possible, the Transportation Authority seeks to attract matching funds, which grantees provide in the form of state, federal, local, private, and other funds. These efforts have led to effective partnerships with city, county, state, and federal agencies for designing and completing transportation projects.

Interested readers may view the Measure A and Measure W TEPs as well as the Strategic Plan 2020-2024 online at https://www.smcta.com/about-us/funding-overview or by contacting:

Executive Officer
San Mateo County Transportation Authority
San Carlos Avenue
1250 San Carlos Avenue P.O. Box 3006
San Carlos, California 94070-1306

Governance

The Transportation Authority is governed by a seven-member Board of Directors with input from a 15-member volunteer Citizens' Advisory Committee (CAC). The Board members are selected as follows:

- The publicly elected County Board of Supervisors appoints two of its members to serve on the Board.
- Local governments participate in a Cities Selection Committee to appoint four Board members, one each to represent the interests of North County, Central County, South County and the citiesat-large.
- The San Mateo County Transit District (District) appoints one Board member.

The Board of Directors meets once a month to determine overall policy for the Transportation Authority, take necessary action to allocate Measure A and W funds, and to review the progress of projects and programs funded in accordance with the Transportation Expenditure Plans.

Administration

The work of the San Mateo County Transportation Authority (TA) is staffed by its managing agency San Mateo County Transit District (District). The TA Executive Director is responsible for overseeing the operations of the Transportation Authority, who is also the District Chief Executive Officer/General Manager (CEO/GM). Day-to-day business is conducted by various divisions within the District. The various divisions are further described below, and this organizational structure described here reflects changes made as a result of the 2022 Memorandum of Understanding between Caltrain and its member agencies, including the District. Highlighted below are divisions within the District that also support the work of the TA.

The *Transportation Authority Division* is responsible for oversight of voter-approved Transportation Expenditure Plans and strategic planning as well as project delivery and project oversight.

The *Communications Division* is responsible for customer service, marketing, advertising, public information, media relations, legislative activities, and community outreach.

The *Executive Office* is responsible for directing and overseeing all agency activities and for providing support to the Board of Directors. This office also includes the Safety and Security function.

The *Finance Division* is responsible for financial accounting and reporting, capital and operational budgeting, payroll and vendor disbursements, investments and cash management, debt management, revenue control, purchasing, contract administration, grant administration, financial planning and analysis, and risk management.

The *Information Technology (IT) Division* is responsible for the innovation and technology of the District including but not limited to Cybersecurity, Database Administration, IT Infrastructure, IT Applications and Software, Network Administration, and Systems Administration.

The *People and Culture Group* is responsible for all human resource functions and employee and labor relations. The Civil Rights office is also part of this division.

The *Planning and Development Division* is responsible for the operations and strategic planning functions of the SamTrans system, as well as for the District's sustainability efforts. In addition, the division also oversees real estate transactions and property management.

Component Units

The Transportation Authority is a legally separate and financially independent governmental agency similar to a special district that is not a component unit of the County of San Mateo, or any other entity. This ACFR and the financial statements contained within represent solely the activities, transactions, and status of the Transportation Authority.

Budget

State law requires the Transportation Authority to adopt an annual budget by resolution of the Board of Directors. In the spring preceding the start of each Fiscal Year, staff presents an annual budget based on established agency goals, objectives, and performance measures to the Board of Directors. The Board of Directors monitors budget-to-actual performance through monthly staff reports. The Financial Section of this report includes supplemental schedules that compare actual results on a budgetary basis of accounting to the original and final adopted budgets.

Once adopted, the Board of Directors has the authority to amend the budget. While the legal level of budgetary control is at the entity level, the Transportation Authority maintains more stringent control at division, departmental and line-item levels to serve various needs. Cost center managers monitor budget-to-actual performance on a monthly basis. The Board has delegated the authority to transfer budget amounts between divisions and departments to the Executive Director or his/her designee. However, any increase to the expenditure budget as a whole requires the approval of the Board. In addition, the Transportation Authority uses the encumbrance system to reduce budget balances by issuing purchase orders to avoid over-commitment of resources.

The Transportation Authority employs the same basis of controls and accounting principles for both budgeted and actual revenues and expenditures, except actual proceeds from the sale of capital assets, unrealized investment gains and losses and inter-fund transfers are not included in the budget. Pursuant to procedures established in its enabling legislation, the Transportation Authority establishes an appropriation limit for each annual budget cycle. The appropriation limit for Fiscal Year 2023 was \$860 million.

Financial and Economic Outlook

The Bay Area continued the rebound from the pandemic, but high inflation and massive tech layoffs clouded the Bay Area economy with uncertainty in FY23. The second half of 2022 reflected a year of the highest inflation since early 1980s, which led to concerns of slower economic growth and a possible recession. To combat high and persistent inflation, the Federal Reserves have been taking aggressive interest rate hikes since March 2022. As a result, inflation dipped in June 2023 to its lowest pace in more than 2 years, indicating price increases are cooling amid the Federal Reserve's rate-hiking regime. On employment, despite the massive tech industry layoffs in late 2022 and early 2023, the Bay Area job market powered through with robust job gains in spring 2023, partly thanks to the ascendance of artificial intelligence, and strong job growth in the education, health services, and construction sectors, further underscoring the diversity of the region's economy and its ability to withstand industry-specific turbulence. For the remainder of 2023 and into 2024, the pace of inflation on housing, consumer goods/services and job markets growth remain key factors and can present continued challenges to Bay Area economy.

According to the State of California Employment Development Department (EDD), the unemployment rate in the San Francisco-Redwood City-South San Francisco Metropolitan Area was 3.2 percent in June 2023, up from a revised 2.9 percent in May 2023, and above the year-ago estimate of 2.5 percent. This compares with an unadjusted unemployment rate of 4.9 percent for California and 3.8 percent for the nation during the same period.

The unemployment rate was 3.2 percent in San Francisco County, and 3.1 percent in San Mateo County. Per the EDD, between May 2022 and May 2023, the total number of jobs in the counties of San Francisco and San Mateo increased by 30,600 jobs or 2.6 percent. Between 2022 and 2027, job growth in San Mateo County is expected to average 1% per year.

According to the 2022 San Mateo County Economic Forecast, the San Mateo County population is expected to steadily decline over the 2022 and 2027 period, mainly due to the high home prices in California and as a result, residents in the region have demonstrated a history of relocating to alternative areas with more affordable conditions. The housing market in San Mateo has been declining since the peak of inflation in 2022. In June 2023, San Mateo home prices were down 4.1% compared to last year, selling for a median home price of \$1.4 million. Overall, the housing market in San Mateo County is expected to remain strong, but the pace of growth is expected to slow down due to the high home prices.

San Francisco and the neighboring San Mateo County technology sector has weathered waves of industry layoffs began in late 2022 and has recovered 38% of job losses since May after months of painful job cuts, partly thanks to developments in artificial intelligence, which is expected to account for much of the job growth in the sector. The median household income of San Mateo County in 2022 was \$141,426, a 12% increase from 2019, partially driven by the high inflation in 2021 and 2022, placing San Mateo County among the most affluent regions of California. The Professional and Business Service sector in San Mateo County remains strong despite tech layoffs in late 2022 and early 2023, as most workers are quickly rehired at other companies, leaving the unemployment rate only slightly higher than last year.

Transportation Authority Programs and Initiatives

The goal of the Transportation Authority is to administer the proceeds from the voter approved Measures A and Measure W to fund a broad spectrum of projects and programs to meet San Mateo County's growing transportation needs. Long-term financial planning is crucial to accomplish this goal, and to ensure funds are expended in the most efficient and effective manner possible.

As noted previously, both Measure A and Measure W require the adoption of a Strategic Plan. The current plan, Strategic Plan 2020-2024, was adopted in December 2019, and can be viewed at https://www.smcta.com/about-us/strategic-plan-2020-2024. The plan establishes a framework of policies to guide the decision-making process of prioritizing transportation projects and programs consistent with the goals and objectives of the Transportation Expenditure Plan and Countywide Transportation Plan.

Below are highlights of the programs currently supported by Measures A and W.

Grade Separations

The 2004 Measure A TEP provides 15 percent of sales tax revenue dedicated toward improving safety at railroad crossings and relieving local traffic congestion. In addition, Measure W dedicates two and a half percent of sales tax revenue to augment the grade separation program. Due to the high cost of constructing railroad grade separations, the Transportation Authority Board limited the 2004 Measure A funding to four pipeline projects on a first-come-first-served basis. In addition, there is a set-aside of no more than \$5 million towards planning activities for grade separations beyond the four pipeline projects. As of June 2023, \$133.3 million of Measure A funds have been allocated toward grade separations. No Measure W funds have been allocated to grade separations at this point.

Notable recent projects supported by Measure A include:

- Completion of Redwood City Caltrain grade separations study.
- Ongoing final design of the Broadway Grade Separation Project in the City of Burlingame.
- Ongoing preliminary engineering and environmental clearance of the South Linden Street and Scott Avenue Grade Separation Project in the City of South San Francisco and City of San Bruno.

Accessible Services

Accessible Services are becoming an even more critical component of providing mobility options for county residents. Four percent of the 2004 Measure A TEP is provided to SamTrans for their annual Paratransit budget, providing an essential lifeline for the county's mobility-impaired population.

Shuttles

Four percent of the 2004 Measure A TEP supports commuter and community shuttle programs in San Mateo County. To date, the Measure A program has allocated over \$36.1 million in funding for shuttle operations. The TA extended the current 2-year shuttle funding cycle by an additional year through FY2023 to provide ongoing support to a combination of 28 commuter and community shuttles due in part to changes accompanying the comprehensive operational analysis of the SamTrans fixed route network concluded in the summer of 2022.

Alternative Congestion Relief

The Transportation Authority funds alternative congestion relief (ACR) programs aimed at reducing single occupancy vehicles (SOV) trips on congested freeways and busy city streets. These customized programs target both infrastructure problems and personal driving habits. ACR programs have an incremental but discernible impact on reducing traffic congestion and improving air quality in San Mateo County and the San Francisco Bay region. One percent of Measure A proceeds are set aside for this category.

To date the Transportation Authority has provided a portion of its ACR funding to Commute.org, which serves seventeen cities. Commute.org is a joint powers authority in San Mateo County, and its mission is to reduce the number of vehicle miles traveled (VMT) by commuters to decrease congestion, improve the environment, and enhance quality of life. The Transportation Authority made an allocation of \$578,400 in support of Commute.org's Fiscal Year 2023 work plan. Commute.org's work plan concentrates on four primary activities:

- Employer outreach and support services.
- Employer-based shuttle program administration.
- Commuter outreach and incentive programs.
- Development of public/private partnerships to reduce congestion.

Four percent of the Measure W Highway Congestion Improvements Category issued to fund Transportation Demand Management (TDM)/ACR programs, which is equivalent to one percent of the total Measure W program. In August 2022, the Board of Directors allocated \$4.4 million for 19 projects, Commute.Org FY23 & FY24 operations, and the Countywide TDM Monitoring program.

Pedestrian and Bicycle Programs

Three (3) percent of the 2004 Measure A TEP and five (5) percent of Measure W funds are available for the Pedestrian and Bicycle Program. The purpose of the program is to fund specific projects to encourage and improve walking and bicycling conditions. The 2004 Transportation Expenditure Plan and the Measure W Congestion Relief Plan include a list of candidate pedestrian and bicycle candidate improvement projects.

Funding considerations are made through a call for projects where project review committees evaluate applications and review the projects based on a set of criteria that were approved as part of the adoption of the Strategic Plan. In December 2022, the Board of Directors allocated \$21.9 million for 25 projects selected through the 2022 Cycle 6 Pedestrian and Bicycle Program Call for Projects. Through June 30, 2023, the Transportation Authority has allocated \$57.2 million to pedestrian and bicycle projects and programs.

Notable bicycle and pedestrian projects milestones include:

- Completed construction of the City of Belmont Ralston Avenue Corridor Improvement Project Segment 3.
- On-going support for feasibility studies for the South San Francisco Junipero Serra/ Westborough Boulevard and Atherton El Camino Real projects.
- On-going support for Half Moon Bay's Pacific Coast Bikeway Project.
- On-going support for the construction of the Redwood Avenue Pedestrian Improvements project in Redwood City.
- On-going support for the planning and design phases of the East Bayshore Road Pedestrian Improvements project in East Palo Alto.
- On-going support for planning and promotions Vision Zero safety efforts in Daly City and Redwood City.

Highway Program

The 2004 Measure A TEP provides 27.5 percent of the annual one-half -cent sales tax receipts for highway projects, while Measure W added another 22.5 percent of the new one-half cent sales tax approved by voters in 2018 for these types of projects. In June 2020, the Transportation Authority adopted an updated Short-Range Highway Plan and companion Capital Improvement Program to help guide highway program investment decisions for the next 10 years. In December 2021, the Board of Directors allocated \$113.9 million to highway project sponsors to make specific project investments which are anchored to the goals of Measure A and the Core Principles of Measure W. The following are examples of the types of projects funded under the highway program:

- Roadway safety improvements.
- Highway throughput enhancements.
- Interchange reconstruction.
- Highway ramp modification.
- Travel pattern forecasts.
- Travel time information system.
- Applying technology to help better manage traffic.

Notable street and highway projects milestones include:

- Opening northern segment of the U.S. 101 Express Lanes Project from Whipple Avenue to I-380.
- Ongoing design for the U.S. 101/SR92 Area Improvement Project.
- Ongoing final design for the U.S. 101/Woodside Road Interchange Project.
- Ongoing environmental clearance for U.S. 101 managed lanes north of I-380.

In 2019, as co-sponsors of the San Mateo U.S. 101 Express Lanes Project, the Transportation Authority and City/County of Association of Governments of San Mateo County (C/CAG) jointly created the San Mateo County Express Lanes Joint Powers Authority (SMCELJPA). The SMCELJPA Board is comprised of six members, including three members each from the TA and C/CAG Boards. The new agency is the owner of the San Mateo County Express Lanes, and is responsible for administration, operations, and management of the facility.

In mid-2020, the TA Board took action to authorize a loan to SMCELJPA of up to \$100 million in support of the construction of the San Mateo U.S. 101 Express Lanes Project, which has a project cost of \$581 million. In addition to the \$100 million loan, the project also has funding sources that include State, Regional, and Federal grants, as well as \$53 million in private sector funds. The Transportation Authority and SMCELJPA entered into a loan agreement, and the SMCELJPA pledged to pay the \$100 million loan from future toll revenues in the coming years.

The facility was delivered in two phases. The southern segment between the Santa Clara County Line and Whipple Avenue in Redwood City (Phase I) began operation on February 11, 2022. The northern segment between Whipple Avenue and I-380 (Phase II) began operation on Friday, March 3, 2023. Now completed, Phases I and II of the Express Lanes project provide a combined 22 miles of managed lanes in each direction on the U.S. 101 Corridor within San Mateo County.

Ferry

The 2004 Measure A TEP stipulates that two percent of sales tax revenue be dedicated to San Mateo County ferry services. The purpose of the program is to fund specific projects related to capital projects that support ferry service in South San Francisco and Redwood City. However, operating funds are not an eligible use of the funds. The two eligible cities agreed to a 50/50 funding share split of this revenue. Measure A funds were used toward the construction of the South San Francisco Ferry terminal, which opened in 2012. To date, a total of \$12.6 million has been allocated toward ferry projects from Measure A. The program is currently supporting the planning and design of a second terminal in South San Francisco and the environmental phase of a new terminal at the Port of Redwood City.

Notable recent projects supported by Measure A:

- On-going feasibility study for a second ferry terminal in South San Francisco.
- Ongoing preliminary engineering and environmental clearance for the Redwood City Ferry Terminal.

Local Streets/Transportation Programs

The 2004 Measure A TEP requires the Transportation Authority to allocate 22.5 percent to local cities and San Mateo County for various transportation-related improvements according to a formula based on population and number of road-miles. The Measure W Congestion Relief Plan also dedicates 10 percent of that tax revenue to this category. During Fiscal Year 2023, local agencies received \$35.2 million from both Measures and recipients of these funds primarily use them for street rehabilitation projects.

Regional Transit Connections

Ten percent of Measure W will be invested in infrastructure and services that are designed to improve transit connectivity between the County and the rest of the nine-county Bay Area region. Investments from this category will be prioritized based on a project's ability to reduce congestion and enhance mobility options by connecting the County to the rest of the region, and a project's support through public-private partnership. This program is somewhat unique in that it can fund a variety of transit modes. In March 2023, the Board of Directors authorized staff to proceed with preparation of a study and Capital Improvement Program that will guide the competitive selection process for the Regional Transit Connections Program. The study is expected to be completed in Fall 2024.

Caltrain

The 2004 Measure A TEP established a category to help subsidize San Mateo County's share of the Peninsula Corridor Joint Powers Board (JPB) annual operating and capital funding needs. The JPB provides public transit services via its Caltrain railroad over a 77-mile right of way extending from San Francisco in the north to Gilroy in the south. Projects funded include:

- Safety improvements
- Planning studies to support new capital projects and operations
- State of good repair projects for:
 - Rail and associated civil structures
 - Bridges
 - Signal and communications
 - Facilities
 - Vehicles

Notable recent projects supported by Measure A include:

- Completion of a new South San Francisco Caltrain station.
- Successful decommissioning of the Atherton Station to help eliminate holdout rules along the corridor.
- Ongoing construction for the Peninsula Corridor Electrification project.

Awards and Acknowledgments

The staff and contracted firms of the Transportation Authority bring an effective combination of skill, experience, and dedication to carrying out the Transportation Authority's mission. Together, they plan, develop, and finance the creation of a modern, coordinated multimodal transportation system offering convenient access to the many attributes of the Bay Area and beyond. Although we expect sales tax growth to be modest, the Transportation Authority expects the continued enthusiasm and dedication of its transit professionals to meet the transportation challenges of the future.

The Government Finance Officers Association (GFOA) recognized the Transportation Authority's Fiscal Year 2022 Annual Comprehensive Financial Report for excellence in financial reporting and the Certificate of Achievement appears immediately following this transmittal letter. To be awarded a certificate, a report must be easy to read and efficiently organized, while satisfying both generally accepted accounting principles and applicable legal requirements. We believe our Fiscal Year 2023 ACFR also meets the requirements for a Certificate of Achievement, and we will submit it to the GFOA for evaluation. We would like to thank our independent audit firm, Eide Bailly LLP for its timely and expert guidance in this matter.

An annual comprehensive financial report requires the dedicated effort of many individuals working together as a team. We extend our grateful recognition to all the individuals who assisted in both the preparation of this report and the processing of financial transactions throughout the Fiscal Year. Finally, we wish to thank the Board of Directors for their interest and support in the development and maintenance of a reliable financial management and reporting system.

Respectfully,

April Chan

Independent Auditor's Report

To the Board of Directors of the San Mateo County Transportation Authority San Carlos, California

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of the governmental activities and the general fund of the San Mateo County Transportation Authority (Transportation Authority) as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the Transportation Authority's basic financial statements, as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the general fund of the Transportation Authority, as of June 30, 2023, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Transportation Authority and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Transportation Authority's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due
 to fraud or error, and design and perform audit procedures responsive to those risks. Such
 procedures include examining, on a test basis, evidence regarding the amounts and disclosures in
 the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing an
 opinion on the effectiveness of the Transportation Authority's internal control. Accordingly, no
 such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Transportation Authority's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control—related matters that we identified during the audit.

Prior-Year Comparative Information

We have previously audited the financial statements of the Transportation Authority as of and for the year ended June 30, 2022, and we expressed unmodified opinions on the respective financial statements of the governmental activities and the general fund in our report dated October 13, 2022. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2022, is consistent, in all material respects, with the audited financial statements from which it has been derived.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, and the general fund budgetary comparison schedule, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Transportation Authority's basic financial statements. The Schedule of Expenditures of Capital Projects from Inception to Date is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Capital Projects from Inception to Date is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information in the annual report. The other information comprises the introductory section and statistical sections, as listed in the table of contents, but does not include the basic financial statements and our auditor's report thereon. Our opinion on the basic financial statements does not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 22, 2023 on our consideration of the Transportation Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Transportation Authority's internal control over financial reporting and compliance.

Management's Discussion and Analysis June 30, 2023

San Mateo County Transportation Authority

June 30, 2023

This discussion and analysis of the Transportation Authority's financial position addresses the Transportation Authority's activities for the fiscal year ended June 30, 2023, with comparisons to the fiscal year ended June 30, 2022. We encourage readers to consider the information presented here in conjunction with the transmittal letter contained in the introductory section and with the statements and related notes contained in the financial section.

Financial Highlights

- The assets and deferred outflows of resources of the Transportation Authority exceeded its liabilities and deferred inflows of resources at June 30, 2023 by \$673.5 million (net position). Of this amount, \$11.7 million represents net investment in capital assets and \$661.8 million represents restricted net position, which is restricted to congestion management programs.
- The Transportation Authority's total net position increased by \$113.0 million. Expenses in the public transit projects and streets and highways projects decreased by \$67.9 million.
- As of June 30, 2023, the Transportation Authority's governmental fund reported a balance of \$761.8 million, an increase of \$113.0 million in comparison with the prior year. The whole amount represents restricted fund balance for Congestion Management including Measure A and Measure W projects.

Overview of the Financial Statements

The Financial Section of this report presents the Transportation Authority's basic financial statements in three components: government-wide financial statements, fund financial statements, and notes to the financial statements. Other supplementary information also appears in addition to the financial statements.

Government-wide Financial Statements

The *Statement of Net Position* presents total assets and total liabilities with the difference between the two reported as net position. Changes in net position over time provide an indicator of whether the financial position of the government is improving or deteriorating.

The Statement of Activities reports on the change in net position during the year. It includes a comparison between direct expenses and related revenues for each program or function. Direct expenses are those specifically associated with and clearly identifiable with a particular program or function. The Statement of Activities matches revenues from charges to customers for goods and services to the program and functional expenses with which the revenues are directly related. Revenues not classified as program or functional, such as sales tax, are presented separately as general revenues. The Transportation Authority reports all changes in net position as soon as underlying events occur, regardless of the timing of the related cash flows. Thus, some revenues and expenses reported in the Statement of Activities result in cash flows in a future period.

Fund Financial Statements

A *fund* is a set of accounts used to control resources segregated for specific activities or objectives. Funds classified as *major* are reported individually on the financial statements. The Transportation Authority reports one major fund only. The Transportation Authority uses fund accounting to ensure compliance with various legal requirements, such as the annually adopted budget. Accordingly, certain financial schedules in this report provide a comparison between budgeted and actual amounts.

The Transportation Authority classifies all of its funds as *governmental*. Unlike the *government-wide* financial statements discussed above, the financial statements for *governmental funds* focus on the inflows, outflows and balances of spendable resources, rather than net position. This information is useful for evaluating the Transportation Authority's current financing requirements.

The Transportation Authority has only one General Fund:

• The General Fund which accounts for the proceeds of the one-half cent county sales tax and the TA's share of the half cent Measure W sales tax. These funds are legally restricted to expenditures for specific transportation improvement projects authorized in an initiative approved by San Mateo County voters. These initiatives are referred to as Measure A and Measure W and the list of eligible projects can be found in the Measure A Transportation Expenditure Plans and Measure W Congestion Relief Plan.

Notes to the Financial Statements

The Notes to the Financial Statements provide additional information that is essential to fully understand the government-wide and fund financial statements. These notes begin immediately following the financial statements to which they refer.

Other Information

This report also presents certain required supplementary information concerning compliance with the Transportation Authority's annual budget for the General Fund which is the Transportation Authority's main operating fund and the equivalent of a general fund. This information and associated notes immediately follow the financial statements and their accompanying notes.

Government-wide Financial Analysis

At June 30, 2023, total assets were \$799.3 million, an increase of \$105.0 million or 15.1% from June 30, 2022. Cash and investments comprise \$649.8 million of this amount. With \$125.6 million in total liabilities and \$0.3 million in deferred inflows of resources, the Transportation Authority is in an excellent position to meet its obligations for current construction projects. As of the end of Fiscal Year 2023, existing encumbrances and expected future costs combined for current construction projects are estimated to total \$255.1 million.

Capital assets of \$11.7 million in 2023, changed slightly from \$11.9 million as of June 30, 2022.

The Transportation Authority does not record the capital assets created by the construction projects it finances on its own accounting books since these assets are of value only to the local government units to which the Transportation Authority's grants were made. For more information on capital assets, please refer to Note #5- Capital Assets of the *Notes to the Financial Statements*.

		Governmental Activities (in thousands)

Governmental Activities

Total expenses for governmental activities were \$78.5 million in 2023, a decrease of \$66.6 million or 45.9% compared to 2022. The functional components of total expenses are public transit (34.8%), streets and highways (60.6%) and other programs, including debt payments (4.6%). The following are the highlights of the Transportation Authority's governmental activities:

- Sales tax revenue increased by \$7.6 million or 4.5% to \$176.6 million in 2023 from 2022.
- Investment income and other revenues had a net income of \$9.6 million in 2023, compared to \$15.5 million net loss in 2022.

- Expenses for public transit projects in 2023 decreased by \$5.0 million or 15.4% to \$27.3 million compared to 2022. The decrease was mainly due the South San Francisco Station project completion in 2022.
- Spending for streets and highways in 2023 decreased by \$62.9 million or 56.9% to \$47.6 million compared to 2022 mainly due to Express Lanes on U.S. 101 from the San Mateo/Santa Clara County line to I-380 project completion in March 2023. The decrease was partially offset by more distributions to local entities as a result of increases in Measure A & W sales tax receipts.

Financial Analysis of the Transportation Authority's Fund

The General Fund is the operating fund of the Transportation Authority. The fund balance reached \$761.8 million as of June 30, 2023, an increase of \$113.0 million or 17.4% from June 30, 2022. The increase was mainly due to more sales tax revenues received than the program had expenditures. The total fund balance at June 30, 2023 is restricted for debt service and Measure A and W projects, and is available for spending at the discretion of the Transportation Authority's Board of Directors in accordance with the Measure A Transportation Expenditure Plan and Measure W Congestion Relief Plan. Since the Transportation Authority principally passes funding through to other organizations, the most accurate indicator of the Transportation Authority's ability to meet its current and future obligations is a comparison of its fund balance to its future commitments. As of June 30, 2023, the estimated cost to complete on-going projects is \$255.1 million or 33.5% of total fund balance.

General Fund Budgetary Highlights

Generally Accepted Accounting Principles (GAAP) requires a discussion of the budget-to-actual performance for the general fund. The *General Fund* employs the same accounting basis and principles for both its budget and actual revenues and expenditures, except that proceeds from the sale of capital assets, unrealized investment gains and losses and inter-fund transfers are not included in the budget. Sales tax represented 96.2% of the *General Fund's* total budgeted revenue for Fiscal Year 2023. Actual sales tax revenue for the year was \$176.7 million, which is greater than the budget by \$14.2 million or 8.8%.

Total program expenses excluding capital outlay, other services and supplies and professional and legal fees for the *General Fund* were slightly over budget.

The Transportation Authority spent \$31.3 million or 22.4% of its final 2023 budget for capital outlays, which included the cost of completing on-going capital projects. Since capital projects normally span more than one year, the Transportation Authority carries over unexpended budgets to succeeding years. However, to enhance understanding of the Transportation Authority's fund balance for the *General Fund*, the carry-over amount from 2022 is not included in the 2023 *Budgetary Comparison Schedule*.

Capital Projects

The Transportation Authority spent \$31.3 million on capital projects in 2023, a decrease of \$68.1 million or 68.5% compared to 2022. Following are the major capital expenditures:

- 25th Avenue Grade Separation project (\$6.4 million).
- Suttles FY21-FY23 Funding project (\$4.2 million).
- Caltrain Electrification project (\$4.3 million).
- 2020 Bike Ped Call for Project (\$0.8 million).
- Broadway Grade Separation project (\$3.8 million).
- U.S. 101 Managed Lanes (North I-380) project (\$1.1 million).

More information on the Transportation Authority's project activity appears in the *Supplementary Information Projects since Inception* and *Construction Commitments* in the *Notes to the Financial Statements*.

Debt

In September 2020, the Transportation Authority issued \$50,000,000 2020 Series A Bonds and an additional \$50,000,000 Series B Bonds (together the "Bonds"). The Bonds are variable rate bonds, with Series A Bonds are issued with a weekly rate reset and the Series B Bonds are issued with a daily rate reset. Interest is due payable on the Bonds every June 1 and December 1 with interest to be calculated on a 365/366-day basis. Proceeds were used to make a Project Loan to the San Mateo County Express Lanes Joint Powers Authority. The Project Loan will be repaid to the Transportation Authority from revenues generated by the Express Lanes. Mandatory redemption in the form of Mandatory Sinking Fund payments will begin on June 1, 2027 for both Bond Series.

The 2020 SMCTA Subordinate Sales Tax Revenue Variable Rate Demand Bonds are limited obligations of the Transportation Authority and are payable from sales tax revenues generated by Measure A and Measure W. More information on the debt activity appears in Note #11 to the Financial Statements.

Economic Factors and Next Year's Budget

The Transportation Authority's Board adopted the Fiscal Year 2024 Budget of \$190.2 million on June 1, 2023. The Transportation Authority's role is to administer the proceeds from Measure A and Measure W to fund a broad spectrum of transportation-related projects. In accordance with the 2004 Transportation Expenditure Plan, annual allocations have been budgeted to Plan categories based on a percentage of projected sales tax revenues. The total annual allocations are approximately \$44.8 million. The Transportation Authority's projected program expenditures are approximately \$127.8 million and compose the funding requirements for Alternative Congestion Relief, Dumbarton, Caltrain, Pedestrian and Bicycle, Local Shuttle, Streets and Highways programs, Grade Separation and the San Mateo County Ferry Service, and Regional Transit Connections.

A budget of \$1.2 million has been set aside to fund the Alternative Congestion Relief Program, \$18.6 million to fund system-wide capital improvements for the Caltrain system. These include State of Good Repair rolling stock, signal, track and station work. The Streets and Highways program includes a budget of \$20.1 million for key congested corridors and \$11.9 million for the supplemental roadway projects. The Grade Separation program has a budget of \$17.4 million. Under Measure W, the Countywide Highway Congestion Improvement program has a budget of \$25.8 million; of the \$25.8 million, \$1.0 million was proposed to be set aside for Transportation Demand Management (TDM) subcategory, and Regional Transit Connections program has a budget of \$11.5 million. The Transportation Authority will put out a call for projects in order to allocate these funds to eligible recipients.

Requests for Information

This financial report intends to provide our citizens, taxpayers, customers, and creditors with a general overview of the Transportation Authority's finances and to demonstrate accountability for resources received. If you have questions about this report or need additional financial information, contact the Chief Financial Officer, 1250 San Carlos Avenue, P.O. Box 3006, San Carlos, California, 94070-1306.

Note 1 - Reporting Entity and Significant Accounting Policies

A. Financial Reporting Entity

The San Mateo County Transportation Authority (Transportation Authority) was formed in June 1988 as a result of the approval of Measure A (one-half cent county sales tax and Transportation Expenditure Plan) by the voters of San Mateo County pursuant to the Bay Area County Traffic and Transportation Funding Act. The Transportation Authority is responsible for the administration of funds collected through the one-half cent county sales tax, initially for a period of 20 years from its formation. In November 2004, the voters reauthorized the sales tax to be administered by the Transportation Authority and a new publicly developed Expenditure Plan for an additional 25 years beyond the original expiration date of 2008. In 2018, the voters of San Mateo County adopted Measure W, "An Ordinance of the San Mateo County Transit District Imposing a One-Half of One Percent Retail Transactions and Use Tax to Implement the San Mateo County Congestion Relief Plan." Measure W authorized the District to administer the new tax in its entirety or to transfer proceeds of the tax to the Transportation Authority for Administration. By District Resolution No. 2020-27, and reflecting the split of funds set forth in the Congestion Relief Plan (50% reserved for SamTrans use, 50% available for other uses), the District expressed its desire to "designate the Authority to administer 50% of the Measure W Sales Tax Revenues as provided in the San Mateo County Congestion Relief Plan, and to irrevocably dedicate such revenues to the Authority for such purposes, for so long as the Authority is in existence." This desire was formalized through two agreements authorized by the same resolution, with each agreement subsequently signed by the District, the Transportation Authority and one or both of the California Department of Tax and Fee Administration and the Bank of New York Mellon.

B. Implementation of Governmental Accounting Standards Board (GASB) Statements

Effective this Fiscal Year

GASB Statement No. 96 – In May 2020, GASB issued Statement No. 96, Subscription-Based Information Technology Arrangements. The objective of this Statement is to provide guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). This Statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset—an intangible asset—and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. The impact to the Transportation Authority resulted in a reclassifications of capital assets and liabilities. The effect of implementation of this standard resulted in an increase of right-to-use subscription assets and liabilities of \$303,108 on the governmental activities and no material change on beginning net position as of July 1, 2021.

Effective in Future Fiscal Years

GASB Statement No. 99 – In April 2022, GASB Issued Statement No. 99, *Omnibus 2022*. The objectives of this Statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing (1) practice issues that have been identified during implementation and application of certain GASB Statements and (2) accounting and financial reporting for financial guarantees. Certain requirements of this statement have been implemented as of June 30, 2023. The requirements related to leases, PPPs, and SBITAs are effective for fiscal years beginning after June 15, 2022, and all reporting periods thereafter. The requirements related to financial guarantees and the classification and reporting of derivative instruments within the scope of Statement 53 are effective for fiscal years beginning after June 15, 2023, and all reporting periods thereafter. The Transportation Authority is evaluating the impact of this Statement on the financial statements.

GASB Statement No. 100 – In June 2022, GASB Issued Statement No. 100, Accounting Changes and Error Corrections – an amendment of GASB Statement No. 62. The objective of this Statement is to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. The requirements of this Statement are effective for accounting changes and error corrections made in fiscal years beginning after June 15, 2023, and all reporting periods thereafter. The Transportation Authority is evaluating the impact of this Statement on the financial statements.

GASB Statement No. 101 – In June 2022, GASB Issued Statement No. 101, *Compensated Absences*. The objective of this Statement is to better meet the information needs of the financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. The requirements of this Statement are effective for fiscal years beginning after December 15, 2023, and all reporting periods thereafter. The Transportation Authority is evaluating the impact of this Statement on the financial statements.

C. Basis of Presentation

Government-wide Financial Statements

The Statement of Net position and Statement of Activities report the financial activities of the Transportation Authority. The Statement of Activities presents a comparison between direct expenses and program revenues for each function of the Transportation Authority. Direct expenses are those that are specifically associated with a program or a function, and therefore, are clearly identifiable to a particular function. Program revenues refer to charges paid by the recipients of goods or services offered by the program. Revenues that are not classified as program revenues, including sales tax revenues, are presented instead as general revenues.

Fund Financial Statements

The Transportation Authority accounts for its sales tax revenue in the General Fund. Sales tax proceeds are legally restricted to improve, construct, maintain, and operate certain transportation projects and facilities contained in the 2004 Transportation Expenditure Plan (TEP) adopted by the Board of Supervisors of San Mateo County, all of the Cities in the County, and the voters in San Mateo County with the approval of the sales tax. That Plan may be amended from time to time pursuant to the Plan and applicable law.

D. Basis of Accounting

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Sales taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Revenues are considered available when their receipt occurs within 180 days after the end of the accounting period. Sales tax and investment earnings are recorded when measurable and available. Expenditures are generally recognized in the accounting period in which the liability is incurred. Capital asset acquisitions and Debt principal payments are reported as expenditures in governmental funds.

E. Fair Value Measurement

Generally accepted accounting principles provide guidance for determining a fair value measurement for reporting purposes, applying fair value to investments, and disclosures related to a hierarchy established by generally accepted accounting principles. The Transportation Authority's fair value hierarchy, which has three levels, is based on the valuation inputs used to measure fair value: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs include inputs that are directly observable for the investment including quoted price for similar investments and inputs that are not directly observable but are derived from observable market data through correlation; Level 3 inputs are significant unobservable inputs.

F. Prepaid Items

Prepaid items represent amounts paid in advance of receiving goods or services. The Transportation Authority has the option of reporting an expenditure in governmental funds for prepaid items either when purchased or during the benefiting period. The Transportation Authority has chosen to report the expenditures during the benefiting period. As of June 30, 2023 and 2022, the Transportation Authority did not have any prepaid items.

G. Cash and Investments

All highly liquid investments with maturities of three months or less when purchased are considered cash equivalents. Investments are reported at fair value. Cash deposits are reported at carrying amount.

H. Capital Assets

Capital assets are recorded at historical cost. Donated capital assets are recorded at estimated acquisition value at the date of donation plus ancillary charges, if any. All capital asset purchases are recorded as expenditures at the time of acquisition in the governmental funds. Such amounts are then capitalized and reported in the government-wide financial statements. Construction projects financed by the Transportation Authority from the one-half cent county sales tax include highways, streets, and grade separations. These infrastructure assets are of value only to the local government units in whose jurisdiction they are constructed and are not recorded as capital assets on the Transportation Authority's books. The Transportation Authority does have subscription right-to-use capital assets which are amortized over the useful life of the asset. Subscription right-to-use capital assets are typically capitalized for the length of the arrangement. The Transportation Authority's policy is to capitalize all capital assets with a cost greater than \$5,000 and a useful life of more than one year.

I. Subscription-Based Information Technology Arrangements (SBITA)

The right-to-use SBITA assets are recognized at the subscription commencement date and represent right to use the underlying IT asset for the term. Right to use subscription IT assets are measured at the initial value of the liability plus any payments made to the vendor at the commencement of the term, less any incentives received before commencement of the term, plus any capitalizable initial implementation costs used to place the asset into service. The right-to-use subscription IT assets are amortized over the shorter of the subscription term or useful life of the underlying asset.

J. Deferred Outflows/Inflows of Resources

The Transportation Authority does not have any items that qualify for reporting in the category of deferred outflows of resources.

In addition to liabilities, the statement of net position includes a separate section for deferred inflows of resources. Deferred Inflows of resources represent an acquisition of net assets that applies to future period(s) and so will not be recognized as an inflow of resources (revenue) until then. The Transportation Authority has two items that quality for reporting in this category. Unavailable revenue is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from leases. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. In the government-wide financial statements the Transportation Authority reports deferred amounts related to leases.

K. Leases

The Transportation Authority recognizes a lease receivable and a deferred inflow of resources in the government-wide and governmental fund financial statements. At the commencement of a lease, the Transportation Authority initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term.

L. Net Position

Net position is measured on the full accrual basis for the government-wide reporting. Net Position is the excess of all the Transportation Authority's assets over all its liabilities. Net position is divided into two captions. These captions apply only to net position, which is determined only at the government-wide level, and are described below:

Net Investment in Capital Assets – The investment in capital assets reported on the statement of net position represents the Transportation Authority's ownership of right of way classified as non depreciable land under capital assets.

Restricted – The restricted net position reported on the statement of net position represents the resources available to the Transportation Authority that are legally restricted to improve, construct, maintain, and operate certain transportation projects and facilities contained in the 2004 Transportation Expenditure Plan adopted by the Board of Supervisors of San Mateo County and all of the Cities in the County. That TEP may be amended from time to time pursuant to the TEP and applicable law.

M. Fund Balance

In governmental fund types, the fund balance is measured on the modified accrual basis. The General Fund (the Fund) balance is classified in accordance with generally accepted accounting principles, which require the Transportation Authority to classify its fund balances based on spending constraints imposed on the use of resources. For programs with multiple funding sources, the Transportation Authority prioritizes and expends funds in the following order, as applicable: restricted, committed, assigned, and unassigned. Each category in the following hierarchy is ranked according to the degree of spending constraint.

Nonspendables - amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted - The restricted fund balance classification reflects amounts subject to externally imposed and legally enforceable constraints. The restricted fund balance reported on the governmental fund balance sheet represents the resources available to the Transportation Authority that are legally restricted to improve, construct, maintain, and operate certain transportation projects and facilities contained in the 2004 Transportation Expenditure Plan (Measure A) and the San Mateo County Congestion Relief Plan (Measure W). Those Plans may be amended from time to time pursuant to their terms and applicable law.

N. Use of Estimates

The Transportation Authority's management has made a number of estimates and assumptions relating to the reported amounts of the financial statements and the related disclosures in conformity with Generally Accepted Accounting Principles (GAAP). Actual results could differ from those estimates.

O. Summarized Data

The summarized partial data provided in these financial statements for Fiscal Year ended June 30, 2022 is not a requirement for fair presentation of the financial statements but is being presented as additional analysis. Such information does not provide sufficient detail to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the Transportation Authority's financial statements for the year ended June 30, 2022 from which such comparative partial information was derived.

Note 2 - Cash and Investments

The Transportation Authority pools cash from all sources and funds so that it can be invested at the maximum yield, consistent with safety and liquidity, while individual funds can make expenditures at any time.

The Transportation Authority records investment transactions on the trade date. Investments are reported at fair value. Fair value is defined as the amount that the Transportation Authority could reasonably expect to receive for an investment in a current sale between a willing buyer and seller and is generally measured by quoted market prices. The Transportation Authority adjusts the carrying value of its investments to reflect their fair value at each fiscal year end. The effects of changes in market value are reflected as a component of investment income. Deposits and investments as of June 30 are categorized as follows:

(in thousands)	June	June 30, 2022		
Cash and Investments				
Cash in bank	\$	112,592	\$	77,372
Restricted cash with fiscal agent		11,154		13,720
Investments		526,028		450,668
Total cash and investments	<u> \$ </u>	649,774	\$	541,760

Authorized Investments by the Transportation Authority

In accordance with the California Government Code or its investment policy when more restrictive, the Transportation Authority may acquire investments as identified in the table below:

Authorized Investment Type	Minimum Credit Rating	Maximum Maturity	Maximum Percentage of Portfolio	Maximum Investment in One Issuer
U.S. Treasury Obligations	None	15 years	100%	N/A
U.S. Agency Securities	None	15 years	100%	N/A
Banker's Acceptances	None	180 days	40%	30%

Supranational Obligations	AA	5 years	30%	N/A
Local Agency Investment Fund (LAIF)	None	N/A	None	\$75M
San Mateo County Investment Pool	None	Up	to the current stat	e limit

Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk incurred when market interest rates adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the Transportation Authority manages its exposure to interest rate risk is by purchasing a combination of short-term and long-term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations. The Transportation Authority monitors the interest rate risk inherent in its portfolio by measuring the weighted average maturity of its portfolio. With respect to this metric, the Transportation Authority's policies are as follows:

The Transportation Authority's weighted average maturity of its investment portfolio at June 30, 2023 was as follows:

Investment Type		Amount housands)	Weighted Average Maturity (in years)
U.S. Treasury Bonds/Notes	\$	142,680	3.17
Federal Agency Collateralized	,	,	
and Agency Bonds/Notes		12,355	2.02
Corporate Bonds and Notes		44,114	1.39
Asset Back Securities		4	1.04
Municipal Debt Securities		4,179	3.33
Supranational		693	1.81
Money Market Mutual Funds		581	-
ICD Investments		1,018	-
Local Agency Investment Fund		4,925	0.71
California Asset Management Program (CAMP)		121,496	0.17
San Mateo County Pool		193,983	3.34
Total	\$	526,028	
Portfolio Weighted Average Maturity			2.29

The Transportation Authority's weighted average maturity of its investment portfolio at June 30, 2022 was as follows:

Investment Type		Amount housands)	Weighted Average Maturity (in years)
U.S. Treasury Bonds/Notes	\$	137,430	2.81
Federal Agency Collateralized and Agency Bonds/Notes		28,344	3.05
Certificates of Deposit		4,794	0.24
Corporate Bonds and Notes		31,736	2.16
Asset Back Securities		748	0.42
Municipal Debt Securities		824	2.50
Supranational		700	2.74
Money Market Mutual Funds		760	-
Local Agency Investment Fund		64,991	0.85
San Mateo County Pool		180,341	1.45
Total	\$	450,668	
Portfolio Weighted Average Maturity			1.92

Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the actual rating as of the fiscal year end for each investment type.

The Transportation Authority's investment portfolio credit quality ratings as of June 30, 2023 were as follows:

			S&P Rating as of June 30, 2023					
	1	Amount					Not	
Investment Type	(in t	:housands)	AAA	AA		Α	Rated	
U.S. Treasury Bonds/Notes	\$	142,680	\$ -	\$142,680	\$	-	\$ -	-
Federal Agency Collateralized								
and Agency Bonds/Notes		12,355	_	12,355		-		-
Corporate Bonds and Notes		44,114	-	21,327		22,787	-	-

Total	\$	450,668	\$	2,208	\$183,167	\$	19,961	\$245,	332

Concentration of Credit Risk

There were no investments in any one issuer that exceeded 5% of the Transportation Authority's total investment portfolio for the years ended June 30, 2023 or June 30, 2022.

Custodial Credit Risk

The custodial credit risk for deposit is the risk that, in the event of the failure of a depository financial institution, the Transportation Authority will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that in the event of the failure of the counter party (e.g., broker-dealer) to a transaction, the Transportation Authority will not be able to recover the value of its investment or collateral securities that are in possession of another party.

California Law requires banks and savings and loan institutions to pledge government securities with a market value of 110% of the cash on deposit in the name of the pool, or first trust deed mortgage notes with a market value of 150% of the deposit, as collateral for these deposits. Under California Law, this collateral is held in a separate investment pool by another institution and places the pool ahead of general creditors of the institution in which the Transportation Authority is a participant.

The Transportation Authority invests in individual investments and in investment pools. Individual investments are evidenced by specific identifiable securities instruments, or by an electronic entry registering the owner in the records of the institution issuing the security, called the book entry system. In order to increase security, the Transportation Authority employs the Trust Department of a bank or trustee as the custodian of certain Transportation Authority managed investments, regardless of their form.

Fair Value Measurements

The Transportation Authority categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs.

The Transportation Authority has the following recurring fair value measurements as of June 30, 2023:

- Debt classified as Level 2 inputs are valued using price data obtained from observed transactions and market price quotations from broker dealers and/or pricing vendors.
- Equities classified as Level 2 inputs are valued using fair value per share.
- Certificates of deposit classified as Level 2 inputs are valued using quoted price for directly observable inputs.

Investments in the San Mateo County Pool and the State Local Agency Investment Fund are not measured using the input levels above because the Transportation Authority's transactions are based on a stable net asset value per share. All contributions and redemptions are transacted at \$1.00 net asset value per share. The following is the Transportation Authority's fair value hierarchy table as of June 30, 2023:

Investment Type (in thousands)	Quoted Prices (Level 1)	Observable Inputs (Level 2)	Total
(III direction as)	(2010) 2)	(2010: 2)	
Investment securities

The following is the Transportation Authority's fair value hierarchy table as of June 30, 2022:

Investment Type
(in thousands)

mvestment type			
(in thousands)	Level 1	Level 2	Total
Investment securities U.S. Treasury Bonds/Notes Federal Agency Collateralized and Agency Bonds/Notes Certificates of Deposit	\$ 137,430 - -	\$ - 28,344 4,794	\$ 137,430 28,344 4,794
Corporate Bonds and Notes Asset Back Securities Municipal Debt Securities Supranational Money Market Mutual Funds	- - - - 760	31,736 748 824 700	31,736 748 824 700 760
Total Uncategorized: Local Agency Investment Fund San Mateo County Investment Pool Cash Restricted cash with fiscal agents	\$ 138,190	\$ 67,146	205,336 64,991 180,341 77,372 13,720
Total Investments By Fair Value Type			\$ 541,760

Methods and Assumptions Used to Estimate Fair Value: The Transportation Authority maintains investment accounting records on amortized cost and adjusts those records to "fair value" on an annual basis. Unrealized gains and losses are recorded on an annual basis and the carrying value of its investments is considered "fair value." The Transportation Authority's investment custodian provides the market value on each investment instrument. The investments held by the Transportation Authority are widely traded in the financial markets and trading values are readily available from numerous published sources.

San Mateo County Treasurer's Investment Pool: The Transportation Authority holds investments in the County Pool that are subject to adjustments to "fair value." The Transportation Authority had a contractual withdrawal value (which is reported using the amortized cost) of \$199,673,000 and \$186,164,000, at June 30, 2023 and 2022, respectively, that is recorded at \$193,983,000 and \$180,341,000 on the balance sheet after the adjustment for unrealized gains/losses for fiscal years ending June 30, 2023 and 2022, respectively. The fair value change in these investments for the year just ended is included in investment income in the statement of revenues, expenditures, and changes in fund balance as well as in the statement of activities via inclusion in the amount of Investment Income.

The Transportation Authority is a voluntary participant in the San Mateo County Treasurer's Investment Pool. The Pool is a governmental investment pool managed and directed by the elected San Mateo County Treasurer. The County Pool is not registered with the Securities and Exchange Commission. An oversight committee comprised of local government officials and various participants provide oversight to the management of the fund. The daily operations and responsibilities of the pool fall under auspices of the County Treasurer's office.

State of California State Treasurer's Local Authority Investment Fund (LAIF): The Transportation Authority holds an investment in LAIF that is subject to "fair value" adjustments. The Transportation Authority had a contractual withdrawal value of \$5,001,000 and \$65,839,000 (which is reported using the amortized cost) after the adjustment for unrealized gains/losses for fiscal year 2023 and 2022, respectively. LAIF is a governmental investment pool managed and directed by the California State Treasurer and is not registered with the Securities and Exchange Commission. An oversight committee comprised of California State officials and various participants provide oversight to the management of the fund. The daily operations and responsibilities of LAIF fall under the auspices of the State Treasurer's office. The Transportation Authority is a voluntary participant in the investment pool.

California Asset Management Program (CAMP): The Transportation Authority holds an investment in CAMP that is subject to "fair value" adjustments. The Transportation Authority had a contractual withdrawal value of \$121,496,000 (which is reported using the amortized cost) after the adjustment for unrealized gains/losses for fiscal year 2023. The Transportation Authority did not hold any investment in CAMP as of June 30, 2022. CAMP is a governmental investment pool managed and directed by the CAMP Treasurer and is not registered with the Securities and Exchange Commission.

Note 3 - Accounts Receivable

Accounts receivable as of June 30 consist of amounts owed by other governmental agencies and miscellaneous receivables as follows:

(in thousands)	2023			2022		
San Mateo County Transit District	\$	180	\$	_		
Bay Area Infrastructure Financing Authority		-		1,568		
California Department of Transportation		89		431		
Facebook		-		648		
Rents Receivable		367		251		
Other		-		132		
Total accounts receivable	\$	636	\$	3,030		

Note 4 - Capital Assets

Capital assets activities for the years ended June 30, 2022 and 2023 are as follows:

(in thousands)		lance at y 1, 2022	Ad	ditions	Dele	etions		lance at e 30, 2023
Amortizable capital assets Right-to-use subscription asset	\$	303	\$	-	\$	-	\$	303
Less accumulated amortization for Right-to-use subscription asset		(121)		(121)		-		(242)
Nondepreciable capital assets Land		11,682		-		-		11,682
Capital Assets, Net	\$	11,864	\$	(121)	\$	-	\$	11,743
(in thousands)	Restated Balance at July 1, 2021		Additions		Deletions		Balance at June 30, 2022	
Amortizable capital assets Right-to-use subscription asset	\$	303	\$	-	\$	-	\$	303
Less accumulated amortization for Right-to-use subscription asset		-		(121)		-		(121)
Nondepreciable capital assets Land		11,682		-		-		11,682
Capital Assets, Net	\$	11,985	\$	(121)	\$	-	\$	11,864

Land represents the cost of right of way acquisition for future grade separation projects, as well as for corridor preservation purposes.

Note 5 - Leases

Lease receivable

During the fiscal years 2023 and 2022, the Transportation Authority had four parking leases and storage units as right of use ground lease transactions through fiscal year 2024, with options to renew. The Transportation Authority received monthly payments of approximately \$1,194,000 for fiscal year 2023 and \$730,000 for fiscal year 2022. The Transportation Authority recognized \$245,000 in lease revenue and \$2,000 in interest revenue during the fiscal year 2023 related to the lease. The Transportation Authority recognized \$727,000 in lease revenue and \$3,000 in interest revenue during the fiscal year 2022 related to the lease. The Transportation Authority had a lease receivable for \$293,000 and \$541,000 as of June 30, 2023 and 2022, respectively. As of June 30, 2023 and 2022, the balance of the deferred inflows of resources was \$279,000 and \$524,000, respectively.

Note 6 - Accounts Payable

Accounts payable at June 30 are as follows:

(in thousands)	2023			2022
District - Salaries and benefits	\$	375	\$	871
Operating expense reimbursement payable to SMCELJPA		-		143
Paratransit program		361		965
Capital project		1,009		937
Other		171		102
Total	\$	1,916	\$	3,018

Note 7 - Accrued Liabilities

Accrued liabilities at June 30 are as follows:

(in thousands)		2023	2022		
Disbursements to local entities for transportation projects	\$	11,295	\$	11,582	
Capital projects		1,575		4,435	
BART		485		469	
Bond interest payable		198		167	
	<u> </u>				
Total	\$	13,553	\$	16,653	

33

Note 8 - Investment Income (loss)

Investment income (loss) activity for the fiscal year ended June 30 is as follows:

(in thousands)	 2023	2022		
Interest income	\$ 9,407	\$	4,116	
Net increase (loss) in fair value of investments	 215		(19,644)	
Investment income (loss) - Statements of Activities	9,622		(15,528)	
Decrease (increase) in long-term interest receivable	 _		1,157	
Investment income (loss) - Statements of Revenues, Expenditures and Changes in Fund Balance	\$ 9,622	\$	(14,371)	

Note 9 - Commitments and Contingencies

Allocation Commitments

As of June 30, the Transportation Authority estimated the cost to complete the following committed projects:

Projects (in thousands)	2023			2022		
Caltrain	\$	21,059	\$	20,933		
Ferry	•	3,677	•	3,723		
Local Shuttle		1,726		5,953		
Railroad Grade Separations		22,934		33,227		
Streets and Highways		180,217		182,167		
Alternative Congestion Relief		1,594		555		
Bicycle and Pedestrian		23,912		14,311		
Total	\$	255,119	\$	260,869		

Litigation

From time to time, the Transportation Authority is involved in litigation arising from the normal course of business. In the opinion of management and legal counsel, as of June 30, 2023, the disposition of any litigation that may be pending is not expected to have a material adverse effect on the overall financial position of the Transportation Authority.

Peninsula Corridor Electrification Project

In its role as a primary source of San Mateo County funds for the Peninsula Corridor Joint Powers Board ("JPB"), the Transportation Authority is a party to a series of funding agreements for the funding of the Peninsula Corridor Electrification Project ("PCEP" or "Project").

For over two decades, the JPB has been preparing to electrify the Caltrain railroad corridor. The \$1.98 billion PCEP funding plan includes \$647 million in Federal Transit Administration ("FTA") Core Capacity Grant funds under a Full Funding Grant Agreement ("FFGA").

In late 2016, the FTA informed the JPB that it would not issue the FFGA without evidence that the JPB will have access to an additional 10% contingency (or \$200 million) beyond the budgeted 16.5% for potential cost over-runs or funding shortfalls.

To address this requirement, on January 5, 2017, the Transportation Authority passed a resolution committing to provide up to \$135 million of additional contingency, with Santa Clara Valley Transportation Authority ("VTA") making a similar commitment in the amount of \$65 million. These actions were conditioned upon and memorialized in an executed memorandum dated January 5, 2017 among VTA, the San Francisco County Transportation Authority and the Metropolitan Transportation Commission accepting the obligation to each share equally with the Transportation Authority in funding whatever amount of additional contingency is called upon, up to \$200 million, to complete the Project.

Note 10 - Insurance Programs

The Transportation Authority is exposed to various risks of loss including but not limited to those related to torts; theft of, damage to, and destruction of assets; errors and omissions, and natural disasters. As of June 30, 2023, coverage provided by self-insurance and excess coverage (purchased by or for the Transportation Authority) is generally summarized as follows:

Type of Coverage	Type of Coverage Self-Insured Retention (in thousands)	
Commercial General Liability	\$100 self-insured retention	\$11,000 per occurrence/ aggregate
Public Officials Liability	\$50 self-insured retention	\$3,000 per occurrence/ aggregate (\$50,000 excess carried by the San Mateo County Transit District on behalf of the Transportation Authority)

To date, there have been no significant reductions in any of the Transportation Authority's insurance coverage. Settlements have not exceeded coverages for each of the past three fiscal years.

Note 11 - Long-Term Liabilities

2020 Transportation Authority Subordinate Sales Tax Revenue Variable Rate Demand Bonds

In September 2020, the TA issued \$50,000,000 2020 Series A Bonds and an additional \$50,000,000 Series B Bonds (together the "Bonds"). The Bonds are variable rate bonds with Series A Bonds issued with a weekly rate reset and the Series B Bonds issued with a daily rate reset. Interest is due and payable on the Bonds every June 1 and December 1 with interest to be calculated on a 365/366-day basis. From issue through June 30, 2023, the Daily Rate has been as high as 3.70%, and as low as 0.01% (or 1 basis point) with an average rate of 0.63% (or 63 basis points). Over the same period, the Weekly Rate has been issued at a high of 3.58%, a low of 0.01% (or 1 basis point) with an average rate of 0.81% (or 81 basis points) on an annual 365/366-day basis. The interest rate expectations are presented in the following tables as though outstanding principal were charged interest at the rates in effect at 6/30 of each year as required by Governmental Accounting Standards Board Statement 88 (GASB 88). The rates in place at June 30, 2023 were 3.23% on the series A bonds (weekly reset) and 2.10% on the Series B Bonds (daily reset). The rates in place at June 30, 2022 were 0.72% (or 72 basis points) on the series A bonds (weekly reset) and 0.52% (or 52 basis points) on the Series B Bonds (daily reset).

Bond proceeds were used to make a Project Loan to the San Mateo County Express Lanes Joint Powers Authority (SMCELJPA) for the construction of express lanes on U.S. 101 in San Mateo County. The Project Loan will be repaid to the Transportation Authority from revenues generated by the Express Lanes. Mandatory redemption in the form of a Mandatory Sinking Fund is designated to make principal payments beginning June 1, 2027, for both Bond Series. The 2020 SMCTA Subordinate Sales Tax Revenue Variable Rate Demand Bonds are limited obligations of the Transportation Authority and are payable from a lien on revenue of (i) the measure A sales tax revenues pursuant to the Bay Area County Traffic and Transportation Funding Act and (ii) the Measure W sales tax revenues pursuant to the San Mateo County Transit District Act.

The 2020 SMCTA Subordinate Sales Tax Revenue Variable Rate Demand Bonds are limited obligations of the Transportation Authority and are payable from a lien on revenue of (i) the measure A sales tax revenues pursuant to the Bay Area County Traffic and Transportation Funding Act and (ii) the Measure W sales tax revenues pursuant to the San Mateo County Transit District Act.

The sales tax revenues are pledged to pay the scheduled principal and interest payments on the subordinate sales tax revenue variable rate demand bonds. In the event that a deficiency exists because of unpaid or delinquent collections at the time a debt service payment is due, the Transportation Authority must provide resources to cover the deficiency until other resources, are received. Debt service payments of \$1,710,032 as a ratio of pledged sales tax revenue of \$176,626,624 for the year ended June 30, 2023, was 10,328.8% and provided 103.3 times coverage. Debt service payments of \$288,639 as a ratio of pledged sales tax revenue of \$169,023,842 for the year ended June 30, 2022, was 58,558.9% and provided 585.6 times coverage.

As of June 30, 2023, \$100,000,000 of subordinate sales tax revenue variable rate demand bonds are outstanding. The subordinate sales tax revenue variable rate demand bonds mature on June 1, 2049.

The Transportation Authority has entered into two software subscription arrangements as subscriber primarily for software as a service (SaaS) and platform as a service (PaaS). Most subscriptions have initial terms of up to three years. As of June 30, 2023, the value of the subscription liability was \$62,000. The Transportation Authority is required to make \$62,000 in payments through June 30, 2024. As the interest rate implicit in the Authority's subscriptions are not readily determinable, the District utilizes its incremental borrowing rate to discount the subscription payments.

Changes in long-term liabilities

Changes in the Transportation Authority's long-term liabilities for the year ended June 30, 2023, are as follows:

(in thousands)	Balance at July 1, 2022				tirements	Balance June 30, 2023		Current Portion		
Subscription liability 2020 Sales Tax	\$	184	\$	-	\$	(122)	\$	62	\$	62
Variable Rate Debt		100,000						100,000		
Total long-term debt	\$	100,000	\$	-	\$		\$	100,000	\$	

The debt service requirements for the Transportation Authority are as follows:

Year Ending June 30:

(in thousands)	Principal		Interest		Total		
2024	\$	-	\$	2,665	\$	2,665	
2025		-	·	2,665		2,665	
2026		_		2,665		2,665	
2027		5,000		2,654		7,654	
2028		-		2,532		2,532	
2029-2033		30,000		11,393		41,393	
2034-2038		18,150		7,672		25,822	
2039-2043		20,040		5,151		25,191	
2044-2048		22,120		2,368		24,488	
2049	_	4,690		114		4,804	
Total	\$	100,000	\$	39,879	\$	139,879	

Note 12 - Related Parties and Jointly Governed Organizations

San Mateo County Express Lanes Joint Powers Authority

The San Mateo County Transportation Authority and the City/County Association of Governments of San Mateo County ("C/CAG") are co-sponsors of the San Mateo County U.S. 101 Express Lanes Project ("Project"). The Project includes (i) the conversion of the existing High Occupancy Vehicle ("HOV") lanes into express lanes from the northern terminus of the Santa Clara County express lanes to the Whipple Road Interchange and (ii) the construction of new express lanes from Whipple Road north to I-380 in San Mateo County. When completed, the Project will provide continuous express lanes in San Mateo County in both the northbound and southbound directions of U.S. 101. Resulting toll revenues will fund transportation and transit improvements in the corridor, as well as Project operations and maintenance. Members of the SMCELIPA's Board of Directors are elected officials representing San Mateo County. The Express Lanes are scheduled for a two-phase opening, south segment opened February 11, 2022, and the north segment was officially opened on March 3, 2023.

In May 2019, the Transportation Authority and the C/CAG formed the San Mateo County Express Lanes Joint Powers Authority ("SMCELJPA") through a Joint Exercise of Powers Agreement to exercise their shared rights to own, administer and manage the Project. Under that agreement, the San Mateo County Transit District (as managing agency for the Transportation Authority) and C/CAG both provide staff support to the SMCELJPA. The District's staff support the SMCELJPA's financial activities (e.g., budgeting, accounting, audits and treasury), marketing (including marketing use of the lanes and promoting the broader benefits of the lanes), and communications (including media and community relations, and the SMCELJPA's website). The Transportation Authority compensates the District for staff time spent in support of the SMCELJPA; the SMCELJPA reimburses the Transportation Authority for such costs.

Loan Receivable

In Fiscal Year 2023, the Transportation Authority and the C/CAG authorized loans to fund operating costs in the amount of \$2,538,000 and \$1,350,000 respectively from each agency. As of June 30, 2023, the Transportation Authority had a loan receivable of \$3,259,000 from the SMCELJPA.

In Fiscal Year 2022, the Transportation Authority and the C/CAG authorized loans to fund operating costs in the amount of \$1,407,000 and \$1,314,000 respectively from each agency. As of June 30, 2022, the Transportation Authority had a loan receivable of \$3,188,000 from the SMCELJPA.

Long Term Project Loan Receivable

On September 1, 2020, the Transportation Authority entered a non-revolving loan agreement with the SMCELJPA. The Transportation Authority is using the proceeds of its 2020 Series A and B Limited Tax Bonds to fund a portion of U.S. 101 Express Lane Project construction. The SMCELJPA has agreed to apply future toll revenues to repay the Transportation Authority in accordance with the terms and provisions of the bond loan agreement. The initial bond loan balance was \$100,000,000 (calculated as the amount of bond proceeds deposited to the funds and accounts under the Bond Indenture plus the underwriters' discount upon initial sale of the Bonds to the underwriters thereof). The Principal is payable on May 1, 2024, and annually thereafter on May 1 of each year through in accordance with the loan agreement. Interest is accrued on the bond loan at a rate equal to the interest rate of the Transportation Authority's 2020 Series A and B Limited Tax Bonds.

As of June 30, 2023, the Transportation Authority has spent \$90 million bonds proceeds on the U.S. 101 Express Lane Project. The unspent bond proceeds of \$10 million was presented as an obligation to fund future project cost.

San Mateo County Transit District

As discussed in Note 1A, the San Mateo County Transit District has been designated as the entity responsible for overall management of the Transportation Authority. The Transportation Authority reimburses the District for staff support services.

Staff support expenditures for the year ended June 30 are as follows:

(in thousands)	2023			2022		
Salaries and benefits Indirect costs	\$	980 248	\$	744 626		
Total	\$	1,228	\$	1,370

Budgets and the Budgetary Process

The Transportation Authority Board adopts an annual operating budget in accordance with Section 131265(a) of the Public Utilities Code. Budget amounts may be revised by Board Resolutions. The budget and actual revenues and expenditures are presented as required supplementary information. The basis the Transportation Authority uses to prepare the budget is consistent with the basis used to reflect the actual revenues and expenditures, except that proceeds from sale of capital assets and unrealized gains and losses on investment are not included in the budget for the General Fund.

Management is authorized to exceed budget for individual categories provided that there is sufficient fund balance.

Supplementary Information June 30, 2023

San Mateo County Transportation Authority

June 30, 2023 (with Comparative Totals for 2022)

The expenditures on public transportation projects during fiscal years 2023 and 2022 were \$99.4 million and \$149.9 million, respectively. Total expenditures on such projects from inception through June 30, are as follows (in thousands):

Projects	2023			2022		
	1					
Alternative Congestion Relief	\$	6,084	\$	5,050		
Caltrain		374,496		369,716		
Dumbarton Spur		34,039		34,006		
Ferry		8,978		8,927

The Statistical Section of the Transportation Authority's Annual Comprehensive Financial Report presents detailed information as a context for understanding the information in the financial statements, notes disclosure, required supplementary information and other supplemental information, and for assessing the Transportation Authority's economic condition.

Financial Trends

These schedules contain trend information to assist readers in understanding and assessing how the Transportation Authority's financial position has changed over time.

Revenue Capacity

These schedules contain information to assist readers in understanding and assessing the factors affecting the Transportation Authority's ability to generate its most significant local revenue source, sales tax.

Debt Capacity

These schedules contain information to assist readers in understanding and assessing the affordability of the Transportation Authority's current level of outstanding debt and the Transportation Authority's ability to issue debt in the future.

Demographic and Economic Information

These schedules present socioeconomic indicators to assist readers in understanding the environment within which the Transportation Authority's financial activities take place.

Operating Information

These schedules contain contextual information about the Transportation Authority's operations and resources to assist readers in using financial statement information as a tool to understand and assess the Transportation Authority's economic condition.

Independent Auditor's Reports June 30, 2023

San Mateo County Transportation Authority

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To the Board of Directors of the San Mateo County Transportation Authority San Carlos, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and the general fund of the San Mateo County Transportation Authority (Transportation Authority) as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the Transportation Authority's basic financial statements, and have issued our report thereon dated December 22, 2023.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Transportation Authority's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Transportation Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Transportation Authority's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Transportation Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Transportation Authority's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
