

## **San Mateo County Transportation Authority 2026 Legislative Program**

### **Purpose**

Legislative and regulatory actions have the potential to significantly benefit San Mateo County Transportation Authority (Agency) programs and services. They also have the potential to present serious challenges that threaten the Agency's ability to meet the county's most critical transportation demands.

The 2026 Legislative Program establishes the principles that will guide the Agency's legislative and regulatory advocacy efforts through the 2026 calendar year, including the second half of the 2025-26 State Legislative Session and second session of the 119th Congress.

The program is intended to be broad enough to cover the wide variety of issues that are likely to be considered during that time and flexible enough to allow the Agency to respond swiftly and effectively to unanticipated developments. The program is in alignment with existing Board-adopted policies and procedures. Expansion of the program beyond those adopted policies and procedures would require Board approval.

### **Objectives**

The 2026 Legislative Program is organized to guide the Agency's actions and positions in support of three primary objectives:

- Maintain and enhance funding opportunities to support the Agency's projects, programs and services;
- Seek a regulatory environment that streamlines project delivery and maximizes the Agency's ability to meet transportation service demands; and
- Reinforce and expand programs that build and incentivize public transportation ridership and improve safe and quality transportation choices.

### **Issues**

The Legislative Program is structured to apply these core objectives to a series of State and Federal issues falling in these categories:

- Budget and Transportation Funding Opportunities
- Transportation Project Requests and Needs
- Regulatory, Legislative, and Administrative Actions

Should other issues surface that require the Board's attention, actions will be guided by the three policy objectives listed above. If needed, potential action on issues that are unrelated to these policy goals will be brought to the Board for consideration.

### **Advocacy Process**

Staff will indicate on each monthly legislative update to the Board recommended positions for pending bills or policy initiatives. Once the Board has an opportunity to review the recommended position, staff will communicate the position to the relevant entities (such as the bill author, relevant legislative committees, agencies, or stakeholders). If legislation falls outside of the scope of the Board's adopted Legislative Program, Board approval will be required prior to the Agency taking a position. In rare circumstances, should a position on a bill or legislation fall outside the

scope of the Board's adopted Legislative Program and be needed in advance of a Board meeting, staff will confer with the Board Chair.

### **Public Engagement Strategies**

Staff, led by the Communications Division and its legislative consultants, will employ a variety of public engagement strategies to support the 2026 Legislative Program, including:

- Direct Engagement  
Engage policymakers, sponsor or support legislation, submit correspondence and provide public testimony that communicates and advances the Agency's legislative priorities and positions.
- Coalition-based Engagement  
Engage stakeholders to build awareness about specific issues and participate in local, regional, statewide and national coalitions organized to advance positions that are consistent with the Legislative Program.
- Media Engagement  
Build public awareness and communicate the Agency's legislative priorities by issuing press releases, organizing media events, and using social media.

The adopted legislative program will guide the Agency's legislative advocacy efforts until approval of the next program.
