MEASURE A AND MEASURE W PEDESTRIAN AND BICYCLE PROGRAM CALL FOR PROJECTS CYCLE 5

CITY OF BURLINGAME CALIFORNIA DRIVE BICYCLE FACILITY PROJECT

California Drive is currently has a wide right-of-way with high traffic speeds and Class III bicycle route sharrows that do not provide dedicated spaces for cyclists to feel comfortable or encourage new riders to use the corridor. The corridor is one of the only uninterrupted north/south routes that connects to major destinations and transit within the City and to adjacent jurisdictions.

The project will construct approximately 0.75 miles of bicycle network along California Drive, between Broadway and Oak Grove Avenue, to enhance north/south connectivity across the City while improving the safety, comfort, and attractiveness of bicycling for people of varying ages and abilities. For planning & budgeting purposes, a Class II or better bicycle facility is proposed. Details of final design will be analyzed and vetted through the project design process involving community outreach and input.
