## MEASURE A AND MEASURE W PEDESTRIAN AND BICYCLE PROGRAM CALL FOR PROJECTS CYCLE 5

## CITY OF REDWOOD CITY HOPKINS AVENUE TRAFFIC SAFETY IMPLEMENTATION PROJECT

Hopkins Avenue was the top-ranked request identified in the City's traffic calming prioritization process. This east-west corridor connects two major north-south arterial streets, El Camino Real and Alameda de las Pulgas, and experiences cut-through traffic at speeds above the posted speed limit (25 mph).

The project includes the permanent construction of traffic calming treatments and new crosswalks that were installed on a pilot basis (curb bulb-outs, speed humps, flashing crosswalks, raised medians, etc.). The project is located on Hopkins Avenue from Alameda de las Pulgas to El Camino Real. Bicyclists will benefit from the traffic calming and upgrades including green thermoplastic markings for conflict zones at intersections and upgrading sections of painted bike lanes to buffered bike lanes with raised buffers.
