A CONSTITUENT PETITION — Highways 35, 84 and 9 —————

To our representatives and the agencies that own Highways 35, 84 and 9: Forty-seven people are dead on this corridor in the last five years of federal data — killed, mostly, by the same combination of a long straight and a sharp curve. I refuse to treat that as normal. Please designate a safety corridor, fund and build the complete-streets fixes these roads need, comply with SB 960, and put real enforcement on this corridor now. The fixes I support and the people I'm asking to act are below.

SPECIFIC FIXES THIS CORRIDOR NEEDS:

All 44 catalogued on the campaign page — the three core asks and every site-specific fix where people have died: <https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fsafecorridorinitiative.com%2F%23ideas&data=05%7C02%7Cpubliccomment%40smcta.com%7Ceb9cb3147902428abe3608deee7e9ce6%7C1a34d2f711e24a45b4cd47cee%7C1d21be%7C0%7C0%7C639210424883698476%7CUnknown%7CTWFpbGZsb3d8eyJFbXB0eU1hcGkiOnRydWUsIlYiOiIlwLj>

I am a 72 year-old physician who has been cycling as a commuter and recreationally for more than 50 years. Cycling has gotten more and more dangerous. The drivers in our area resent our presence and often treat us like fleas rather than respecting our right to be on the road. We are not polluting the environment, not contributing to automobile traffic and providing drivers with more places for them to park. We need to have slower speed limits on Skyline Boulevard, 84 and Canada Road as well as more parameters such as roundabouts, signage and speedbumps as well as police presence to slow down the traffic and make these roads safer for cyclists , pedestrians and equestrians. I have cycled all around the country in Europe and this is one of the most dangerous areas, with the least regard for our safety on the roads. I live in San Mateo — I'm one of your constituents.

Thank you, Beth Kleiner MD

PETITION FOR A SAFE CORRIDOR — Hwy 35, 84 and 9 _____

To the leaders and agencies responsible for Highways 35, 84 and 9: Over the last five years of federal records, 47 people have died on these three mountain roads — again and again in the same way, speed built on a straightaway and lost at

the following curve. I'm adding my name to a simple demand: designate this a safety corridor, fund and build the complete-streets fixes the road needs, meet your obligations under SB 960, and put real enforcement out here now. The fixes I support and the officials I'm asking to act are listed below.

THE SPECIFIC FIXES I SUPPORT:

All 44 catalogued on the campaign page — the three core asks and every site-specific fix where people have died:

PETITION FOR A SAFE CORRIDOR — Hwy 35, 84 and 9

To the officials and agencies accountable for these roads: In five years of federal records, Highways 35, 84 and 9 have taken 47 lives — the crashes cluster at the same bends, where speed built on a straightaway meets a curve. I'm one of many neighbors asking you to act: designate a safety corridor, fund and build the complete-streets fixes, comply with SB 960, and bring real enforcement to this corridor now. My supported fixes and the officials I'm addressing follow below.

THE FIXES I'M STANDING BEHIND:

All 44 catalogued on the campaign page — the three core asks and every site-specific fix where people have died: <https://safecorridorinitiative.com#ideas>

I'll be watching what your office does with this.

As a long-time resident of the area, as well as an avid cyclist, I am shocked by the increase in reckless speeders on Skyline every Saturday morning. How many more deaths need to happen before measures are taken to control these dangerous drivers?

Writing as your constituent in Redwood City.

PETITION FOR A SAFE CORRIDOR — Hwy 35, 84 and 9 —————

To our elected leaders and the agencies that own these roads: Highways 35, 84, and 9 through the Santa Cruz Mountains have killed 47 people in the last five years of federal records — most in the same way, too much speed built on a straight and spent at the next curve. We, the undersigned, ask you to formally designate a safety corridor, fund and build the complete-streets fixes these roads need, comply with SB 960, and put real enforcement on this corridor now. Below are the specific fixes we support and the people we're asking to act.

SPECIFIC FIXES THIS CORRIDOR NEEDS:

All 44 catalogued on the campaign page — the three core asks and every site-specific fix where people have died:

As an avid cyclist since 1978, I have ridden along these roads many times over the years. In recent years, I totally avoid them on weekends given the tendency of some drivers to drive recklessly. I have also had some scary, close encounters while riding on weekdays. In addition, I have driven to the numerous Open Space Preserves along these corridors to hike. Unsafe drivers endanger all of us who are trying to enjoy our beautiful preserved lands. Please find ways to enforce a reasonable and safe speed limit. Thank you for your efforts.

I am a constituent, writing from Los Altos.

A CONSTITUENT PETITION — Highways 35, 84 and 9 —————

To our representatives and the agencies that own Highways 35, 84 and 9: Forty-seven people are dead on this corridor in the last five years of federal data — killed, mostly, by the same combination of a long straight and a sharp curve. I refuse

to treat that as normal. Please designate a safety corridor, fund and build the complete-streets fixes these roads need, comply with SB 960, and put real enforcement on this corridor now. The fixes I support and the people I'm asking to act are below.

Please help make these beautiful roads safer for all users. I vote in Menlo Park, and this corridor is mine too. PETITION FOR A SAFE CORRIDOR — Hwy 35, 84 and 9

— To the officials and agencies accountable for these roads: In five years of federal records, Highways 35, 84 and 9 have taken 47 lives — the crashes cluster at the same bends, where speed built on a straightaway meets a curve. I'm one of many neighbors asking you to act: designate a safety corridor, fund and build the complete-streets fixes, comply with SB 960, and bring real enforcement to this corridor now. My supported fixes and the officials I'm addressing follow below. THE FIXES I'M ASKING FOR: All 44 catalogued on the

PETITION — Safe Corridor for Highways 35, 84 and 9 —————

To the leaders and agencies responsible for Highways 35, 84 and 9: Over the last five years of federal records, 47 people have died on these three mountain roads — again and again in the same way, speed built on a straightaway and lost at the following curve. I'm adding my name to a simple demand: designate this a safety corridor, fund and build the complete-streets fixes the road needs, meet your obligations under SB 960, and put real enforcement out here now. The fixes I support and the officials I'm asking to act are listed below.

THE FIXES I'M STANDING BEHIND:

All 44 catalogued on the campaign page — the three core asks and every site-specific fix where people have died:
<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fsafecorridorinitiative.com%2F%23ideas&data=05%7C02%7Cpubliccomment%40smcta.com%7Cbb1921931af34b04427808deee808e2a%7C1a34d2f711e24a45b4cd47cee b1d21be%7C0%7C0%7C639210433245950152%7CUnknown%7CTWfPbGZsb3d8eyJFbXB0eU1hcGkiOnRydWUslYiOilwLjAuMDAwMClslIAiOiJXaW4zMilslkFOljoiTWFpbcislldUljoyfQ%3D%3D%7C60000%7C%7C%7C&sdata=J%2BbYPMUSyyYol tcSwWVEA9jNvC9J4zElue1i2oQo5c%3D&reserved=0>

This is preventable — I'm asking you to prevent it.

I've lived in the South Bay for almost 30 years. I love cycling and hiking in the Santa Cruz mountains for the beauty and the exercise. Sadly, I've had to frequently change my plans for my own safety. While cycling, I've been hit by a car on Hwy 9, and I've had several very close calls on Hwy 35. Now, with the recent death of a fellow cyclist (Jakub), I'm torn about mine, and many of my friends choices for exercising, socializing, and enjoying Nature that we are blessed with here on the peninsula. Please do something to make the mountain roads safer for everyone. Thank you in advance for your help and leadership with this issue.

I vote in Los Altos, and this corridor is mine too.

SAFE-CORRIDOR PETITION — Highways 35, 84 and 9

To the officials and agencies accountable for these roads: In five years of federal records, Highways 35, 84 and 9 have taken 47 lives — the crashes cluster at the same bends, where speed built on a straightaway meets a curve. I'm one of many neighbors asking you to act: designate a safety corridor, fund and build the complete-streets fixes, comply with SB 960, and bring real enforcement to this corridor now. My supported fixes and the officials I'm addressing follow below.

SPECIFIC FIXES THIS CORRIDOR NEEDS:

All 44 catalogued on the campaign page — the three core asks and every site-specific fix where people have died:

Representative Margaret Abe-Koga,

I am a father of two, long time resident of Los Altos Hills (since 2012), and avid cyclist. I have been struck by a motorcycle on Highway 9 and lucky only broke a rib. The motorcyclist was racing his friend down the hill on the wrong side of the road. The Sherrif's office determined it was his fault. The issue is that the cops/sherrif rarely enforce the speed limits on these roads when there are hundreds of motorcyclists and race car drivers going up to 100 miles a hour. Please help us implement the ideas in this petition. I also strongly recommend you all implement automated radar ticketing systems on all of these roads and dramatically lower the speed limit.

I am a constituent, writing from Los Altos Hills.

A CONSTITUENT PETITION — Highways 35, 84 and 9

To everyone with the power to make these roads safe: The federal crash record counts 47 people killed on Highways 35, 84 and 9 in five years — most in a single, predictable pattern of speed and curve. This can be engineered out. I'm asking you to formally designate a safety corridor, fund and construct the complete-streets improvements these highways require, comply with SB 960, and fund real enforcement in the meantime. Below are the specific fixes I stand behind and the decision-makers I'm calling on.

THE FIXES I'M ASKING FOR:

All 44 catalogued on the campaign page — the three core asks and every site-specific fix where people have died:

Please don't wait for the next death to act.

Thank you,

I am a serious recreational cyclist who used to ride on Skyline Drive (35) and I'm a member of the Western Wheeler Bicycle Club. I used to ride on Skyline Drive but avoid it at all costs these days - especially on weekends when the racers present. And that goes for motorcycles and drivers in their high performance vehicles who get a thrill out of pushing their vehicles to the limit creating extremely dangerous roadways. We are all mourning the tragic, senseless, death of our fellow cyclist, Jakub, who did not deserve to die when a speeding Porsche crossed the centerline and crashes into him head on! It is time to seriously take action on implementing traffic calming measures on this road, increase enforcement for as long as you have to, and put an end to the racers with traffic camera as done elsewhere in the world. And, we would very much like to see measurable improvements in the future that you can share with the community.

I am a constituent, writing from Palo Alto.

PETITION TO MAKE HIGHWAYS 35, 84 AND 9 SAFE

To our elected leaders and the agencies that own these roads: Highways 35, 84, and 9 through the Santa Cruz Mountains have killed 47 people in the last five years of federal records — most in the same way, too much speed built on a straight and spent at the next curve. We, the undersigned, ask you to formally designate a safety corridor, fund and build the complete-streets fixes these roads need, comply with SB 960, and put real enforcement on this corridor now. Below are the specific fixes we support and the people we're asking to act.

I ride my bicycle multiple times per week on Highway 9 and 35. Safety of these roads for all citizens should be a priority!

I live in Los Gatos — I'm one of your constituents.

PETITION FOR A SAFE CORRIDOR — Hwy 35, 84 and 9 _____

To everyone with the power to make these roads safe: The federal crash record counts 47 people killed on Highways 35, 84 and 9 in five years — most in a single, predictable pattern of speed and curve. This can be engineered out. I'm asking you to formally designate a safety corridor, fund and construct the complete-streets improvements these highways require, comply with SB 960, and fund real enforcement in the meantime. Below are the specific fixes I stand behind and the decision-makers I'm calling on.

THE FIXES I'M ASKING FOR:

All 44 catalogued on the campaign page — the three core asks and every site-specific fix where people have died:

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fsafecorridorinitiative.com%2F%23ideas&data=05%7C02%7Cpubliccomment%40smcta.com%7Cb84be8f8e98e45caa64c08deee8251c1%7C1a34d2f711e24a45b4cd47ceeb1d21be%7C0%7C0%7C639210440820833418%7CUnknown%7CTWFpbGZsb3d8eyJFbXB0eU1hcGkiOnRydWUsIlYiOiIwLjAuMDAwMCIiOiIjXaW4zMilslkFOljoiTWFpbCIsIldUljoyfQ%3D%3D%7C40000%7C%7C%7C&sdata=gjCwzP4zLxCzHjNfrWL7NGecSJ5I%2B43%2F6VZbBG57DBs%3D&reserved=0>

I've lived off Skyline in the Skylonda neighborhood for 30 years. Raised two daughters (PV school district) and have witnessed the death of a cyclist at my very own street corner (Elk Tree Rd and 35). I do not ride my bike on Skyline. I've already been hit from behind by a distracted driver on the U of A campus in 1989 - thank goodness I had a helmet back then! It's only because my brother owned a bike shop and he gave me one. I was knocked unconscious from that hit.

My neighbors and I have a very sad saying - especially on the weekends when we hear the racing motos and horrible after-market modified cars racing up and down Skyline - "Who's going to die today?"

I drive the whole length of Skyline often and the speed limit does not need to need 50 mph! It's a designated scenic highway and 50 just translates to 65, in my experience. I don't feel it's appropriate to drive 50 on some sections - let's wake up and fix that issue for one!

I don't envy the CHP and sheriffs deputies - it's impossible trying to be in the right place at the right time to catch these racers. I hear them at 11pm at night on Mondays, for instance.

Enough from me, for now.

Best regards,
Andrea Reid

SAFE-CORRIDOR PETITION — Highways 35, 84 and 9

To our representatives and the agencies that own Highways 35, 84 and 9: Forty-seven people are dead on this corridor in the last five years of federal data — killed, mostly, by the same combination of a long straight and a sharp curve. I refuse to treat that as normal. Please designate a safety corridor, fund and build the complete-streets fixes these roads need, comply with SB 960, and put real enforcement on this corridor now. The fixes I support and the people I'm asking to act are below.

SAFE-CORRIDOR PETITION — Highways 35, 84 and 9

To the officials and agencies accountable for these roads: In five years of federal records, Highways 35, 84 and 9 have taken 47 lives — the crashes cluster at the same bends, where speed built on a straightaway meets a curve. I'm one of many neighbors asking you to act: designate a safety corridor, fund and build the complete-streets fixes, comply with SB 960, and bring real enforcement to this corridor now. My supported fixes and the officials I'm addressing follow below.

WHAT I'M ASKING YOU TO FUND AND BUILD:

All 44 catalogued on the campaign page — the three core asks and every site-specific fix where people have died:

I ride my bicycle on these roads and sometimes traffic goes by so fast it is literally terrifying.

A CONSTITUENT PETITION — Highways 35, 84 and 9 —————

To our representatives and the agencies that own Highways 35, 84 and 9: Forty-seven people are dead on this corridor in the last five years of federal data — killed, mostly, by the same combination of a long straight and a sharp curve. I refuse to treat that as normal. Please designate a safety corridor, fund and build the complete-streets fixes these roads need, comply with SB 960, and put real enforcement on this corridor now. The fixes I support and the people I'm asking to act are below.

SPECIFIC FIXES THIS CORRIDOR NEEDS:

All 44 catalogued on the campaign page — the three core asks and every site-specific fix where people have died:
<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fsafecorridorinitiative.com%2F%23ideas&data=05%7C02%7Cpubliccomment%40smcta.com%7Cfe3f695356dd412a66a608deee836be5%7C1a34d2f711e24a45b4cd47ceeb1d21be%7C0%7C0%7C639210445535661757%7CUnknown%7CTWFpbGZsb3d8eyJFbXB0eU1hcGkiOnRydWUsIlYiOiIwLjAuMDAwMCIslIAiOiJXaW4zMilslkFOljoiTWFpbCIsIldUljoyfQ%3D%3D%7C40000%7C%7C%7C&sdata=Ehdi%2B8F3z8L54utZweTt%2BuHcZnB1qRjdsRFw%2FUvj4CA%3D&reserved=0>

I'll be watching what your office does with this.

PETITION TO MAKE HIGHWAYS 35, 84 AND 9 SAFE

—

To the officials and agencies accountable for these roads: In five years of federal records, Highways 35, 84 and 9 have taken 47 lives — the crashes cluster at the same bends, where speed built on a straightaway meets a curve. I'm one of many neighbors asking

you to act: designate a safety corridor, fund and build the complete-streets fixes, comply with SB 960, and bring real enforcement to this corridor now. My supported fixes and the officials I'm addressing follow below.

THE FIXES I'M ASKING FOR:

All 44 catalogued on the campaign page — the three core asks and every site-specific fix where people have died: <https://safecorridorinitiative.com#ideas>

Please tell me what your office will do about it.

PETITION FOR A SAFE CORRIDOR — Hwy 35, 84 and 9

—

To the leaders and agencies responsible for Highways 35, 84 and 9: Over the last five years of federal records, 47 people have died on these three mountain roads — again and again in the same way, speed built on a straightaway and lost at the following curve. I'm adding my name to a simple demand: designate this a safety corridor, fund and build the complete-streets fixes the road needs, meet your obligations under SB 960, and put real enforcement out here now. The fixes I support and the officials I'm asking to act are listed below.

THE FIXES I'M STANDING BEHIND:

All 44 catalogued on the campaign page — the three core asks and every site-specific fix where people have died: <https://safecorridorinitiative.com#ideas>

I ride in these corridors and in the wake of numerous murders of other bikers, pedestrians and equestrians who have who use these roads I have become deathly afraid of riding them. Many of my bike club members now refuse to ride these routes. The hoodlums in sports cars who turn these roads into race tracks need to be prevented from killing any more innocent road users.

Please do your part by making changes to these roads that will reliably slow traffic to 30 MPH.

Dear elected officials Mueller, Becker, Berman and Mullin,

The total number of deaths, accidents and injuries speak their own language, in merely a few recent years. The skyline area is a great place for recreation and special to the Bay Area Peninsula, and making it safer for non-motorized activities would greatly improve the quality of life in our area, reduce accident related costs and human suffering! Please consider supporting the solutions presented in this petition to make the roads safer for everyone.

I own a property and pay property tax in San Mateo, and this corridor affects us all

PETITION FOR A SAFE CORRIDOR — Hwy 35, 84 and 9 _____

To everyone with the power to make these roads safe: The federal crash record counts 47 people killed on Highways 35, 84 and 9 in five years — most in a single, predictable pattern of speed and curve. This can be engineered out. I'm asking

you to formally designate a safety corridor, fund and construct the complete-streets improvements these highways require, comply with SB 960, and fund real enforcement in the meantime. Below are the specific fixes I stand behind and the decision-makers I'm calling on.

SPECIFIC FIXES THIS CORRIDOR NEEDS:

All 44 catalogued on the campaign page — the three core asks and every site-specific fix where people have died:

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fsafecorridorinitiative.com%2F%23ideas&data=05%7C02%7Cpubliccomment%40smcta.com%7Cc26ba23ad0ec49e3f79c08deee851ce4%7C1a34d2f711e24a45b4cd47ceeb1d21be%7C0%7C0%7C639210452821571970%7CUnknown%7CTWFpbGZsb3d8eyJFbXB0eU1hcGkiOnRydWUsIlYiOiIwLjAuMDAwMCIslIAiOiJXaW4zMilslkFOljoiTWFpbCIsIldUIjoyfQ%3D%3D%7C60000%7C%7C%7C&sdata=u9MoKN9CbnHfpTkC3QLP0rH%2Fydg%2F7GG0JfM7UguQLYE%3D&reserved=0>

Every month of delay is measured in lives.

With urgency,

Carl Enell — San Mateo homeowner

HI Leaders and Agencies Responsible for Highways 35, 84 and 9,

I live in Half Moon Bay, CA and I'm one of your constituents.

Full disclosure:

I am Chairman of the Half Moon Bay, CA Bicycle Pedestrian Advisory Committee (BPAC) , have served on BPAC for many years am an avid cyclist . **This email and my views expressed herein are my own and seperate from BPAC**, although I will be bringing this to their attention at the next meeting.

Hwy 35, 84, and 9 are used by cyclists to cross over the hill from the coast or in some cases used to do a loop by using 84 and Skyline.

Myself and friends used to ride over the hill on a regular basis, but over the last five or so years it feels like **the danger level has drastically increased. And it's so bad we don't even venture there anymore.**

Simply trying to **cross over Skyline from the top of Tunitas to go down Kings makes you feel like Frogger** and will make your heart race.

That's crazy to think it's that dangerous to cross over a place that narrow.

Imagine if you're a hiker trying to cross and can't go as fast as two wheels allows.

Over the **last five years of federal records, 47 people have died on these three mountain roads**, again and again in the same way, speed built on a straightaway and lost at the following curve.

I'm adding my name to a simple demand: designate this a safety corridor, fund and build the complete streets fixes the road needs, meet your obligations under SB 960, and put real enforcement out here now. The fixes I support and the officials I'm asking to act are listed below.

SPECIFIC FIXES THIS CORRIDOR NEEDS:

All 44 catalogued on a campaign page that is easy to read and understand in 3 minutes of your time, the three core asks and every site-specific fix where people have died:

<https://safecorridorinitiative.com#ideas>

I know you want to do the right thing here and I'll be watching what your office does with this.

Warmly,
Brandon

These used to be some of the best cycling roads in the nation. But since the pandemic the epidemic of fast cars has kept growing, to the point that it's too dangerous to go out there on weekends. This governmental neglect really needs to stop.

PETITION FOR A SAFE CORRIDOR — Hwy 35, 84 and 9

—
To our elected leaders and the agencies that own these roads: Highways 35, 84, and 9 through the Santa Cruz Mountains have killed 47 people in the last five years of federal

records — most in the same way, too much speed built on a straight and spent at the next curve. We, the undersigned, ask you to formally designate a safety corridor, fund and build the complete-streets fixes these roads need, comply with SB 960, and put real enforcement on this corridor now. Below are the specific fixes we support and the people we're asking to act.

THE FIXES I'M ASKING FOR:

All 44 catalogued on the campaign page — the three core asks and every site-specific fix where people have died: <https://safecorridorinitiative.com#ideas>

Please tell me what your office will do about it.

Respectfully,
Andy Kelm — Redwood City

Please rise the alarm ! Encourage CHP and Police/Sherriff to dive the roads and be visible. The word will pass quickly. Should cost less than building or repairing Guard RILS

I live in Saratoga — I'm one of your constituents.

A CONSTITUENT PETITION — Highways 35, 84 and 9 —————

To our representatives and the agencies that own Highways 35, 84 and 9: Forty-seven people are dead on this corridor in the last five years of federal data — killed, mostly, by the same combination of a long straight and a sharp curve. I refuse to treat that as normal. Please designate a safety corridor, fund and build the complete-streets fixes these roads need, comply with SB 960, and put real enforcement on this corridor now. The fixes I support and the people I'm asking to act are below.

WHAT I'M ASKING YOU TO FUND AND BUILD:

All 44 catalogued on the campaign page — the three core asks and every site-specific fix where people have died:

PETITION FOR A SAFE CORRIDOR — Hwy 35, 84 and 9

To everyone with the power to make these roads safe: The federal crash record counts 47 people killed on Highways 35, 84 and 9 in five years — most in a single, predictable pattern of speed and curve. This can be engineered out. I'm asking you to formally designate a safety corridor, fund and construct the complete-streets improvements these highways require, comply with SB 960, and fund real enforcement in the meantime. Below are the specific fixes I stand behind and the decision-makers I'm calling on.

WHAT I'M ASKING YOU TO FUND AND BUILD:

All 44 catalogued on the campaign page — the three core asks and every site-specific fix where people have died: <https://safecorridorinitiative.com#ideas>

Please tell me what your office will do about it.

In earnest,

PETITION FOR A SAFE CORRIDOR — Hwy 35, 84 and 9

To our representatives and the agencies that own Highways 35, 84 and 9: Forty-seven people are dead on this corridor in the last five years of federal data — killed, mostly, by the same combination of a long straight and a sharp curve. I refuse to treat that as normal. Please designate a safety corridor, fund and build the complete-streets fixes these roads need, comply with SB 960, and put real enforcement on this corridor now. The fixes I support and the people I'm asking to act are below.

I love cycling in this area and cycling over to the coast and back is a special experience. But Skyline seems to encourage reckless drivers in sport cars putting other motorists and especially bicycles at great risk. I was cycling behind on 84 near Skyline when a car crossed the center line on a curve and crashed head-on with him. He was vaulted over the hood of the car and smashed into the windshield which fortunately cushioned the impact. Just by luck he escaped with no major injuries but he could easily have been another statistic. Canada road has its own issues with speeding drivers, but Skyline is the worst.

To our elected leaders and the agencies that own these roads: Highways 35, 84, and 9 through the Santa Cruz Mountains have killed 47 people in the last five years of federal records — most in the same way, too much speed built on a straight and spent at the next curve. Subject: Constituent petition — stop the deaths on Hwy 35, 84 and 9

[You don't often get email from zbarahal@gmail.com. Learn why this is important at <https://aka.ms/LearnAboutSenderIdentification>]

I ride my bicycle in the areas around Woodside. People drive like they're at a race track. I have friends who have told me not to bike there because they themselves have driven 100+ mph on Skyline. There is something wrong with that road and the way people behave around it.

The story about Jakub was horrifying. You can ride as defensively as you want but if people speed and lose control, what can you do about that?

Please don't wait for more bodies. All we really want is for people to not use our roads as drag strips.

PETITION FOR A SAFE CORRIDOR — Hwy 35, 84 and 9 _____

To our elected leaders and the agencies that own these roads: Highways 35, 84, and 9 through the Santa Cruz Mountains have killed 47 people in the last five years of federal records — most in the same way, too much speed built on a straight

and spent at the next curve. We, the undersigned, ask you to formally designate a safety corridor, fund and build the complete-streets fixes these roads need, comply with SB 960, and put real enforcement on this corridor now. Below are the specific fixes we support and the people we're asking to act.

THE FIXES I'M STANDING BEHIND:

All 44 catalogued on the campaign page — the three core asks and every site-specific fix where people have died:

Hon. Sirs & Mesdames:

I used to be a frequent user of Highway 35. No longer. It is too perilous to use, which is a great, and also fixable, pity. Please consider supporting measures to make this magnificent road everyone's again to use in safety.

Writing as your constituent in Redwood City.

PETITION TO MAKE HIGHWAYS 35, 84 AND 9 SAFE

To our representatives and the agencies that own Highways 35, 84 and 9:

Forty-seven people are dead on this corridor in the last five years of federal data — killed, mostly, by the same combination of a long straight and a sharp curve. I refuse to treat that as normal. Please designate a safety corridor, fund

and build the complete-streets fixes these roads need, comply with SB 960, and put real enforcement on this corridor now. The fixes I support and the people I'm asking to act are below.

Subject: Please make Highways 35, 84 and 9 a safety corridor

I love riding my bike, and I love the views and peace of Skyline. Jakub Solovsky was a member of my club and I will forever miss his kind smile and beautiful photography. We can not afford to lose another human, be they a cyclist, pedestrian, equestrian, driver or passenger, due to traffic laws not being obeyed. Please support this initiative so we are not mourning another person lost and another set of lives forever impacted by speeding cars.

I vote in Los Altos, and this corridor is mine too.

—

To the leaders and agencies responsible for Highways 35, 84 and 9: Over the last five years of federal records, 47 people have died on these three mountain roads — again and again in the same way, speed built on a straightaway and lost at the following curve. I'm adding my name to a simple demand: designate this a safety corridor, fund and build the complete-streets fixes the road needs, meet your obligations under SB 960, and put real enforcement out here now. The fixes I support and the officials I'm asking to act are listed below.

THE FIXES I'M STANDING BEHIND:

All 44 catalogued on the campaign page — the three core asks and every site-specific fix where people have died: <https://safecorridorinitiative.com#ideas>

Every month of delay is measured in lives.

I live nearby- ride these roads daily, and I'm shocked at the lack of patrolling on Skyline and Hwy9/84. It seems that not even the bare minimum is done to take preventative action in these well known "trouble" spots. I would like to see a comparison of high speed crashes and fatalities on Hwy 280 (including CHP/police presence) vs these aforementioned roads .

I live in PORTOLA VALLEY — I'm one of your constituents.

SAFE-CORRIDOR PETITION — Highways 35, 84 and 9 —————

To everyone with the power to make these roads safe: The federal crash record counts 47 people killed on Highways 35, 84 and 9 in five years — most in a single, predictable pattern of speed and curve. This can be engineered out. I'm asking you to formally designate a safety corridor, fund and construct the complete-streets improvements these highways

require, comply with SB 960, and fund real enforcement in the meantime. Below are the specific fixes I stand behind and the decision-makers I'm calling on.

WHAT I'M ASKING YOU TO FUND AND BUILD:

All 44 catalogued on the campaign page — the three core asks and every site-specific fix where people have died:

I ride these roads thirty to forty times a year, and have had more than 5 extremely close calls this year alone. Porsches and BMWs pushing triple digits overtaking over double yellow and in blind corners. This has to stop. Law enforcement MUST DO THEIR JOB. Start impounding cars to send a message, trust me, the car community will spread the word fast, don't do life threatening things in our neighborhood. Take it to Sonoma Raceway

PETITION — Safe Corridor for Highways 35, 84 and 9

—

To our elected leaders and the agencies that own these roads: Highways 35, 84, and 9 through the Santa Cruz Mountains have killed 47 people in the last five years of federal records — most in the same way, too much speed built on a straight and spent at the next

curve. We, the undersigned, ask you to formally designate a safety corridor, fund and build the complete-streets fixes these roads need, comply with SB 960, and put real enforcement on this corridor now. Below are the specific fixes we support and the people we're asking to act.

THE FIXES I'M ASKING FOR:

All 44 catalogued on the campaign page — the three core asks and every site-specific fix where people have died: <https://safecorridorinitiative.com#ideas>

Every month of delay is measured in lives.

In earnest,

I am a experienced cyclist with tens of thousands of miles under my belt both nationally and internationally. But in my own back yard I avoid these highways at all costs. Life is too short to die because of these poorly designed highways. Please enforce speeds laws and also fix these roads so that they are safe for cyclists.

I live in Menlo Park — I'm one of your constituents.

SAFE-CORRIDOR PETITION — Highways 35, 84 and 9 —————

To our representatives and the agencies that own Highways 35, 84 and 9: Forty-seven people are dead on this corridor in the last five years of federal data — killed, mostly, by the same combination of a long straight and a sharp curve. I refuse to treat that as normal. Please designate a safety corridor, fund and build the complete-streets fixes these roads need, comply with SB 960, and put real enforcement on this corridor now. The fixes I support and the people I'm asking to act are below.

WHAT I'M ASKING YOU TO FUND AND BUILD:

All 44 catalogued on the campaign page — the three core asks and every site-specific fix where people have died:

I cycle on these roads and hike at the various parks along these roads frequently enough to know how dangerous they are. The super speeders make what otherwise would be bucolic, beautiful areas into danger zones. My bike club recently lost a beloved member because of a reckless driver along Skyline. I'd like to honor Jakob's memory by doing all I can to push for safer roads. No more deaths! Thank you.

I vote in San Carlos, and this corridor is mine too.

I regularly cycled on Woodside Road and Skyline and it has felt more and more dangerous over recent years. I'm expecting a child and have decided it's simply too dangerous now to cycle up there until something is done to reduce the dangerous driving.

We don't necessarily need better cycling infrastructure, simply enforcement of existing traffic laws.

I vote in Redwood City, and this corridor is mine too.

PETITION FOR A SAFE CORRIDOR — Hwy 35, 84 and 9 —————

To the officials and agencies accountable for these roads: In five years of federal records, Highways 35, 84 and 9 have taken 47 lives — the crashes cluster at the same bends, where speed built on a straightaway meets a curve. I'm one of

I frequently ride these highways on my road bike during the weekend, and every single time, there are some cars driving fast making it seem like a race track. Some will drive close to you while they pass as well. I hope we can improve safety around some cross sections, and more police presence and speed checks. I've personally had a close call in the cross section at Skylonda with a truck that didn't respect the stop sign.

PETITION FOR A SAFE CORRIDOR — Hwy 35, 84 and 9

To the officials and agencies accountable for these roads: In five years of federal records, Highways 35, 84 and 9 have taken 47 lives — the crashes cluster at the same bends, where speed built on a straightaway meets a curve. I'm one of many neighbors asking you to act: designate a safety corridor, fund and build the complete-streets fixes, comply with SB 960, and bring real enforcement to this corridor now. My supported fixes and the officials I'm addressing follow below.

SPECIFIC FIXES THIS CORRIDOR NEEDS:

All 44 catalogued on the campaign page — the three core asks and every site-specific fix where people have died: <https://safecorridorinitiative.com#ideas>

I'll be watching what your office does with this.

Thank you,

I vote in Los Altos hills, and this corridor is mine too.

A CONSTITUENT PETITION — Highways 35, 84 and 9 —————

To our elected leaders and the agencies that own these roads: Highways 35, 84, and 9 through the Santa Cruz Mountains have killed 47 people in the last five years of federal records — most in the same way, too much speed built on a straight and spent at the next curve. We, the undersigned, ask you to formally designate a safety corridor, fund and build the complete-streets fixes these roads need, comply with SB 960, and put real enforcement on this corridor now. Below are the specific fixes we support and the people we're asking to act.

THE FIXES I'M STANDING BEHIND:

All 44 catalogued on the campaign page — the three core asks and every site-specific fix where people have died:

A San Jose resident, I drive, walk, and cycle in those corridors and hope that the city of San Jose can put pressure on the governmental agencies responsible for their safety.

Writing as your constituent in San Jose.

PETITION — Safe Corridor for Highways 35, 84 and 9 —————

To our representatives and the agencies that own Highways 35, 84 and 9: Forty-seven people are dead on this corridor in the last five years of federal data — killed, mostly, by the same combination of a long straight and a sharp curve. I ride my bike on Skyline and Highway 9 whenever I have the chance. It is one of the most beautiful places in California and it should be made safely available to all. I live in Los Altos — I'm one of your constituents.

PETITION TO MAKE HIGHWAYS 35, 84 AND 9 SAFE

To the leaders and agencies responsible for Highways 35, 84 and 9: Over the last five years of federal records, 47 people have died on these three mountain roads — again and again in the same way, speed built on a straightaway and lost at the following curve. I'm adding my name to a simple demand: designate this a safety corridor, fund and build the complete-streets fixes the road needs, meet your obligations under SB 960, and put real enforcement out here now. The fixes I support and the officials I'm asking to act are listed below. Subject: Highways 35, 84 and 9: a preventable death toll

I ride on and hike near these roads every week and am disgusted to see the death toll continue to pile up. Something must be done and the ask here is IMO the way this starts. I vote in Redwood City, and this corridor is mine too. PETITION — Safe Corridor for Highways 35, 84 and 9

— To everyone with the power to make these roads safe: The federal crash record counts 47 people killed on Highways 35, 84 and 9 in five years — most in a single, predictable pattern of speed and curve. This can be engineered out. I'm asking you to formally designate a safety corridor, fund and construct the complete-streets improvements these

highways require, comply with SB 960, and fund real enforcement in the meantime. Below are the specific fixes I stand behind and the decision-makers I'm calling on. THE FIXES I'M ASKING FOR: All 44 catalogued on the campaign page — the three core asks and every site-specific fix where people have died: <https://safecorridorinitiative.com#ideas> Every month of delay is measured in lives.

I live in San Jose — I'm one of your constituents.

A CONSTITUENT PETITION — Highways 35, 84 and 9 —————

To the officials and agencies accountable for these roads: In five years of federal records, Highways 35, 84 and 9 have taken 47 lives — the crashes cluster at the same bends, where speed built on a straightaway meets a curve. I'm one of many neighbors asking you to act: designate a safety corridor, fund and build the complete-streets fixes, comply with SB 960, and bring real enforcement to this corridor now. My supported fixes and the officials I'm addressing follow below.

THE FIXES I'M STANDING BEHIND:

All 44 catalogued on the campaign page — the three core asks and every site-specific fix where people have died: <https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fsafecorridorinitiative.com%2F%23ideas&data=05>

PETITION TO MAKE HIGHWAYS 35, 84 AND 9 SAFE

To the leaders and agencies responsible for Highways 35, 84 and 9: Over the last five years of federal records, 47 people have died on these three mountain roads — again and again in the same way, speed built on a straightaway and lost at the following curve. I'm

adding my name to a simple demand: designate this a safety corridor, fund and build the complete-streets fixes the road needs, meet your obligations under SB 960, and put real enforcement out here now. The fixes I support and the officials I'm asking to act are listed below.

SPECIFIC FIXES THIS CORRIDOR NEEDS:

All 44 catalogued on the campaign page — the three core asks and every site-specific fix where people have died: <https://safecorridorinitiative.com#ideas>

I'll be watching what your office does with this.

Skyline is a death trap for cyclists. Even when I am riding as safely as possible, “race” cars and motorcycles fly around me at excessive speeds. Four corners/Skylonda is insanely unsafe. How is this not a 4-way stop, when drivers can fly downhill from either direction on Skyline without stopping? Please make each of these segments more safe.

Writing as your constituent in San Carlos.

A CONSTITUENT PETITION — Highways 35, 84 and 9

To our elected leaders and the agencies that own these roads: Highways 35, 84, and 9 through the Santa Cruz Mountains have killed 47 people in the last five years of federal records — most in the same way, too much speed built on a straight and spent at the next curve. We, the undersigned, ask you to formally designate a safety corridor, fund and build the complete-streets fixes these roads need, comply with SB 960, and put real enforcement on this corridor now. I am a bicyclist with 40 years of cycling experience. I ride the Skyline corridor about 6 times per year, and am greatly aware of the conditions that are being highlighted in this study/request. It is time to address the concerns of everyone who use this corridor, wether for commuting or recreation. We all deserve safe roads to travel on, please help in making this corridor safe for all.

I vote in San Carlos, and this corridor is mine too.

SAFE-CORRIDOR PETITION — Highways 35, 84 and 9 —————

To our representatives and the agencies that own Highways 35, 84 and 9: Forty-seven people are dead on this corridor in the last five years of federal data — killed, mostly, by the same combination of a long straight and a sharp curve. I refuse to treat that as normal. Please designate a safety corridor, fund and build the complete-streets fixes these roads need,

comply with SB 960, and put real enforcement on this corridor now. The fixes I support and the people I'm asking to act are below.

SPECIFIC FIXES THIS CORRIDOR NEEDS:

All 44 catalogued on the campaign page — the three core asks and every site-specific fix where people have died:

As a cyclist and driver I witness first hand distracted and reckless driving by many on the coast and in the hills. There need to be real consequences for the car and motorcycle clubs that speed through the San Mateo county hills and on the coast. The public roads are not a race track! We also need education about and enforcement of distracted driving and speeding laws in general.

SAFE-CORRIDOR PETITION — Highways 35, 84 and 9

To the officials and agencies accountable for these roads: In five years of federal

records, Highways 35, 84 and 9 have taken 47 lives — the crashes cluster at the same bends, where speed built on a straightaway meets a curve. I'm one of many neighbors asking you to act: designate a safety corridor, fund and build the complete-streets fixes, comply with SB 960, and bring real enforcement to this corridor now. My supported fixes and the officials I'm addressing follow below.

THE FIXES I'M STANDING BEHIND:

All 44 catalogued on the campaign page — the three core asks and every site-specific fix where people have died: <https://safecorridorinitiative.com#ideas>

Every month of delay is measured in lives.

PETITION — Safe Corridor for Highways 35, 84 and 9 —

To the leaders and agencies responsible for Highways 35, 84 and 9: Over the last five years of federal records, 47 people have died on these three mountain roads — again and again in the same way, speed built on a straightaway and lost at the following curve. I'm adding my name to a simple demand: designate this a safety corridor, fund and build the complete-streets fixes the road needs, meet your obligations under SB 960, and put real enforcement out here now. The fixes I support and the officials I'm asking to act are listed below.

THE FIXES I'M ASKING FOR:

All 44 catalogued on the campaign page — the three core asks and every site-specific fix where people have died:

I have been personally hit by a motorbike while hiking along 35. Broken ribs, fractured collar-bone, dislocated shoulder; I was one of the lucky ones. When I cycle along here, the speed of some of the 'convoys' is terrifying.

I am a constituent, writing from Palomar Park.

PETITION TO MAKE HIGHWAYS 35, 84 AND 9 SAFE

To everyone with the power to make these roads safe: The federal crash record counts 47 people killed on Highways 35, 84 and 9 in five years — most in a single, predictable pattern of speed and curve. This can be engineered out. I'm asking you to formally designate a safety corridor, fund and construct the complete-streets improvements these highways require, comply with SB 960, and fund real enforcement in the meantime. Below are the specific fixes I stand behind and the decision-makers I'm calling on.

We need to make roads safer for all who use them. It's as simple as that.

PETITION TO MAKE HIGHWAYS 35, 84 AND 9 SAFE

—

To our elected leaders and the agencies that own these roads: Highways 35, 84, and 9 through the Santa Cruz Mountains have killed 47 people in the last five years of federal records — most in the same way, too much speed built on a straight and spent at the next curve. We, the undersigned, ask you to formally designate a safety corridor, fund and

build the complete-streets fixes these roads need, comply with SB 960, and put real enforcement on this corridor now. Below are the specific fixes we support and the people we're asking to act.

SPECIFIC FIXES THIS CORRIDOR NEEDS:

All 44 catalogued on the campaign page — the three core asks and every site-specific fix where people have died: <https://safecorridorinitiative.com#ideas>

I'll be watching what your office does with this.

With urgency,

I ride around 6000 miles per year and have had a number of close calls with inattentive, distracted and speeding drivers of vehicles. I ride for my health, sanity and enjoyment. I should not have to fear others on the road. Please make these roads safer for pedestrians, riders, equestrians and wildlife. I want to watch my Granddaughter graduate High School and College and be a part of my families lives for many years to come.

I bike these roads (35, 84, 92, Kings, Old) daily and want to see safety improvements made.

I am a constituent, writing from Menlo Park.

A CONSTITUENT PETITION — Highways 35, 84 and 9

To the leaders and agencies responsible for Highways 35, 84 and 9: Over the last five

years of federal records, 47 people have died on these three mountain roads — again and again in the same way, speed built on a straightaway and lost at the following curve. I'm adding my name to a simple demand: designate this a safety corridor, fund and build the complete-streets fixes the road needs, meet your obligations under SB 960, and put real enforcement out here now. The fixes I support and the officials I'm asking to act are listed below.

I used to live in Portola Valley and found cycling on Skyline quite stressful. The car rallies are out of control and should be banned. I have friends who bike on Skyline and they shouldn't risk their lives to go on a bike ride.

SAFE-CORRIDOR PETITION — Highways 35, 84 and 9

To the officials and agencies accountable for these roads: In five years of federal records, Highways 35, 84 and 9 have taken 47 lives — the crashes cluster at the same

A CONSTITUENT PETITION — Highways 35, 84 and 9 _____

To the officials and agencies accountable for these roads: In five years of federal records, Highways 35, 84 and 9 have taken 47 lives — the crashes cluster at the same bends, where speed built on a straightaway meets a curve. I'm one of many neighbors asking you to act: designate a safety corridor, fund and build the complete-streets fixes, comply with SB 960, and bring real enforcement to this corridor now. My supported fixes and the officials I'm addressing follow below.

SPECIFIC FIXES THIS CORRIDOR NEEDS:

All 44 catalogued on the campaign page — the three core asks and every site-specific fix where people have died:
<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fsafecorridorinitiative.com%2F%23ideas&data=05%7C02%7Cpubliccomment%40smcta.com%7C049359f7a4ba482ffc4a08deee92a713%7C1a34d2f711e24a45b4cd47ceeb1d21be%7C0%7C0%7C639210510981510754%7CUnknown%7CTWFpbGZsb3d8eyJFbXB0eU1hcGkiOnRydWUsIlYiOiIwLjAuMDAwMCIsIlAiOiJXaW4zMilslkFOljoitWFBpbCIsIldUIjoyfQ%3D%3D%7C40000%7C%7C%7C&sdata=UUCldqeUkFZBbsNckMxZH5lxHxCfNYPOLL7hCX1q0fg%3D&reserved=0>

Please don't wait for the next death to act.

In earnest,

PETITION — Safe Corridor for Highways 35, 84 and 9 —————

To the leaders and agencies responsible for Highways 35, 84 and 9: Over the last five years of federal records, 47 people have died on these three mountain roads — again and again in the same way, speed built on a straightaway and lost at the following curve. I'm adding my name to a simple demand: designate this a safety corridor, fund and build the complete-streets fixes the road needs, meet your obligations under SB 960, and put real enforcement out here now. The fixes I support and the officials I'm asking to act are listed below.

THE SPECIFIC FIXES I SUPPORT:

All 44 catalogued on the campaign page — the three core asks and every site-specific fix where people have died:

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fsafecorridorinitiative.com%2F%23ideas&data=05%7C02%7Cpubliccomment%40smcta.com%7C334b4e4865014ba50fca08deee940b7c%7C1a34d2f711e24a45b4cd47cee%7C0%7C0%7C639210516962855047%7CUnknown%7CTWFpbGZsb3d8eyJFbXB0eU1hcGkiOnRydWUsIlYiOiIwLjAuMDAwMCIslIAiOiJXaW4zMlslkFOljoITWFpbCIsIldUljoyfQ%3D%3D%7C60000%7C%7C%7C&sdata=8mJhauvx5b8KhzF7oiYLn5%2Bp7t0IPYtks1ywacO2Ynk%3D&reserved=0>

I ride these roads multiple times per week and have had too many close calls personally. As a cyclist AND a motorist, I enjoy using these roads for both, but safety measures can be added to keep both safe.

I vote in Menlo Park, and this corridor is mine too.

I bicycle, hike and drive along the Skyline corridor regularly and I am increasingly disturbed by the risks involved. Better enforcement of traffic laws, and improvements to build safer infrastructure are necessary and long-overdue.

A CONSTITUENT PETITION — Highways 35, 84 and 9

—

To everyone with the power to make these roads safe: The federal crash record counts 47 people killed on Highways 35, 84 and 9 in five years — most in a single, predictable pattern of speed and curve. This can be engineered out. I'm asking you to formally

designate a safety corridor, fund and construct the complete-streets improvements these highways require, comply with SB 960, and fund real enforcement in the meantime. Below are the specific fixes I stand behind and the decision-makers I'm calling on.

I' m a cyclist in woodside area . I' ve notice a tremendous amount of fast sports vehicles always racing on Canada and Skyline blvd . It' s very reckless and I feel this issue needs to be addressed. I live in Woodside — I'm one of your constituents. PETITION TO MAKE HIGHWAYS 35, 84 AND 9 SAFE

— To our elected leaders and the agencies that own these roads: Highways 35, 84, and 9 through the Santa Cruz Mountains have killed 47 people in the last five years of federal records — most in the same way, too much speed built on a straight and spent at the next curve. We, the undersigned, ask you to formally designate a safety corridor, fund and

A CONSTITUENT PETITION — Highways 35, 84 and 9 —————

To our representatives and the agencies that own Highways 35, 84 and 9: Forty-seven people are dead on this corridor in the last five years of federal data — killed, mostly, by the same combination of a long straight and a sharp curve. I refuse to treat that as normal. Please designate a safety corridor, fund and build the complete-streets fixes these roads need, comply with SB 960, and put real enforcement on this corridor now. The fixes I support and the people I'm asking to act are below.

SPECIFIC FIXES THIS CORRIDOR NEEDS:

All 44 catalogued on the campaign page — the three core asks and every site-specific fix where people have died:

PETITION FOR A SAFE CORRIDOR — Hwy 35, 84 and 9

—

To our elected leaders and the agencies that own these roads: Highways 35, 84, and 9 through the Santa Cruz Mountains have killed 47 people in the last five years of federal records — most in the same way, too much speed built on a straight and spent at the next

curve. We, the undersigned, ask you to formally designate a safety corridor, fund and build the complete-streets fixes these roads need, comply with SB 960, and put real enforcement on this corridor now. Below are the specific fixes we support and the people we're asking to act.

THE SPECIFIC FIXES I SUPPORT:

All 44 catalogued on the campaign page — the three core asks and every site-specific fix where people have died: <https://safecorridorinitiative.com#ideas>

I'll be watching what your office does with this.

PETITION — Safe Corridor for Highways 35, 84 and 9 —————

To the officials and agencies accountable for these roads: In five years of federal records, Highways 35, 84 and 9 have taken 47 lives — the crashes cluster at the same bends, where speed built on a straightaway meets a curve. I'm one of many neighbors asking you to act: designate a safety corridor, fund and build the complete-streets fixes, comply with SB 960, and bring real enforcement to this corridor now. My supported fixes and the officials I'm addressing follow below.

This is a common sense plea.

PETITION — Safe Corridor for Highways 35, 84 and 9

—
To everyone with the power to make these roads safe: The federal crash record counts 47 people killed on Highways 35, 84 and 9 in five years — most in a single, predictable

pattern of speed and curve. This can be engineered out. I'm asking you to formally designate a safety corridor, fund and construct the complete-streets improvements these highways require, comply with SB 960, and fund real enforcement in the meantime. Below are the specific fixes I stand behind and the decision-makers I'm calling on.

THE FIXES I'M ASKING FOR:

All 44 catalogued on the campaign page — the three core asks and every site-specific fix where people have died: <https://safecorridorinitiative.com#ideas>

Every month of delay is measured in lives.

Respectfully,

Susan Walker — Redwood City

I am a cyclist and I ride Highways 35 and 84 nearly every weekend. In addition to being very scenic roads, these roads provide a necessary link for my rides and those of many other riders. Cycling is a non-polluting activity with great benefits to health and well being.

I am usually shocked by the high speeds of many recreational drivers, mostly on expensive sports cars, that use these roads on weekends. They present a hazard to everybody, including other drivers and themselves. Cyclists and pedestrians are at the highest risk because of the greater speed differential and because they are not protected by the

massive body of a car or (worse yet) an SUV.

I vote in Redwood City, and this corridor is mine too.

PETITION FOR A SAFE CORRIDOR — Hwy 35, 84 and 9 —

To our elected leaders and the agencies that own these roads: Highways 35, 84, and 9 through the Santa Cruz Mountains have killed 47 people in the last five years of federal records — most in the same way, too much speed built on a straight and spent at the next curve. We, the undersigned, ask you to formally designate a safety corridor, fund and build the complete-streets fixes these roads need, comply with SB 960, and put real enforcement on this corridor now. Below are the specific fixes we support and the people we're asking to act.

My son goes to work on his bike on these routes.

I live in Los Altos Hills — I'm one of your constituents.

PETITION — Safe Corridor for Highways 35, 84 and 9 —————

To the officials and agencies accountable for these roads: In five years of federal records, Highways 35, 84 and 9 have taken 47 lives — the crashes cluster at the same bends, where speed built on a straightaway meets a curve. I'm one of many neighbors asking you to act: designate a safety corridor, fund and build the complete-streets fixes, comply with SB 960, and bring real enforcement to this corridor now. My supported fixes and the officials I'm addressing follow below.

WHAT I'M ASKING YOU TO FUND AND BUILD:

All 44 catalogued on the campaign page — the three core asks and every site-specific fix where people have died:

SAFE-CORRIDOR PETITION — Highways 35, 84 and 9

To the officials and agencies accountable for these roads: In five years of federal

records, Highways 35, 84 and 9 have taken 47 lives — the crashes cluster at the same bends, where speed built on a straightaway meets a curve. I'm one of many neighbors asking you to act: designate a safety corridor, fund and build the complete-streets fixes, comply with SB 960, and bring real enforcement to this corridor now. My supported fixes and the officials I'm addressing follow below.

THE FIXES I'M ASKING FOR:

All 44 catalogued on the campaign page — the three core asks and every site-specific fix where people have died: <https://safecorridorinitiative.com#ideas>

Please tell me what your office will do about it.

In earnest,

SAFE-CORRIDOR PETITION — Highways 35, 84 and 9

—

To our representatives and the agencies that own Highways 35, 84 and 9: Forty-seven people are dead on this corridor in the last five years of federal data — killed, mostly, by the same combination of a long straight and a sharp curve. I refuse to treat that as normal. Please designate a safety corridor, fund and build the complete-streets fixes these roads need, comply with SB 960, and put real enforcement on this corridor now. The fixes I support and the people I'm asking to act are below.

This is preventable — I'm asking you to prevent it.

I ride my bike pretty much everywhere but have been avoiding these mountain roads despite their lower traffic volumes because it feels like I have no margin for error

I vote in Redwood City, and this corridor is mine too.

A CONSTITUENT PETITION — Highways 35, 84 and 9 —————

To our elected leaders and the agencies that own these roads: Highways 35, 84, and 9 through the Santa Cruz Mountains have killed 47 people in the last five years of federal records — most in the same way, too much speed built on a straight and spent at the next curve. We, the undersigned, ask you to formally designate a safety corridor, fund and build the complete-streets fixes these roads need, comply with SB 960, and put real enforcement on this corridor now. Below are the specific fixes we support and the people we're asking to act.

SPECIFIC FIXES THIS CORRIDOR NEEDS:

All 44 catalogued on the campaign page — the three core asks and every site-specific fix where people have died:

Speed kills. We lost Jakub Solovsky to a driving racing on Skyline, losing control of his car and hitting Jakub head-on. It's not an isolated incident. Cars and motorcycles race on Skyline everyday.

PETITION TO MAKE HIGHWAYS 35, 84 AND 9 SAFE

To the officials and agencies accountable for these roads: In five years of federal records, Highways 35, 84 and 9 have taken 47 lives — the crashes cluster at the same bends, where speed built on a straightaway meets a curve. I'm one of many neighbors asking you to act: designate a safety corridor, fund and build the complete-streets fixes, comply with SB 960, and bring real enforcement to this corridor now. My supported fixes and the officials I'm addressing follow below.

THE FIXES I'M STANDING BEHIND:

All 44 catalogued on the campaign page — the three core asks and every site-specific fix where people have died:

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fsafecorridorinitiative.com%2F%23ideas&data=05%7C02%7Cpubliccomment%40smcta.com%7C3df7da8aaba145256a9108deee9dabb8%7C1a34d2f711e24a45b4cd47cee b1d21be%7C0%7C0%7C639210558302326043%7CUnknown%7CTWFpbGZsb3d8eyJFbXB0eU1hcGkiOnRydWUsIlYiOiIwLjAuMDAwMCIslIAiOiJXaW4zMilslkFOljoiTWFpbClslldUljoyfQ%3D%3D%7C40000%7C%7C%7C&sdata=y3W0z3UDoUbR5W xXkjKfKdhYw8ByQBt5gLiD1kDcqUI%3D&reserved=0>

Please tell me what your office will do about it.

PETITION — Safe Corridor for Highways 35, 84 and 9

—

To our representatives and the agencies that own Highways 35, 84 and 9: Forty-seven people are dead on this corridor in the last five years of federal data — killed, mostly, by the same combination of a long straight and a sharp curve. I refuse to treat that as normal.

Please designate a safety corridor, fund and build the complete-streets fixes these roads need, comply with SB 960, and put real enforcement on this corridor now. The fixes I support and the people I'm asking to act are below.

SPECIFIC FIXES THIS CORRIDOR NEEDS:

All 44 catalogued on the campaign page — the three core asks and every site-specific fix where people have died: <https://safecorridorinitiative.com#ideas>

Subject: A safety corridor for Hwy 35/84/9 — my name is on it

Hello,

I live near and cycle on these roads occasionally. I'm deeply disturbed when I hear of cyclists who die on these roads in tragic, preventable, accidents because I picture myself — someone just out for a ride to soak in the views and exercise. I think of how easily that could have been me if I got unlucky as they have.

These roads are known hot spots for speeding and reckless driving but it seems no one wants to do anything about it. Everyone's lives are endangered on these roads, and it's time to put some serious measures in place to prevent future tragedies.

Sincerely,

Justin

I live in Mountain View — I'm one of your constituents.

I grew up riding from Saratoga to 9 and skyline, met my wife on these roads (CalFire station water stop!), and am scared to ride them today as the father of two young kids. I also went out to school at Stanford and rode 84 more times than I can count. It too feels too dangerous to consider today.

PETITION — Safe Corridor for Highways 35, 84 and 9

— To everyone with the power to make these roads safe: The federal crash record counts 47 people killed on Highways 35, 84 and 9 in five years — most in a single, predictable pattern of speed and curve. This can be engineered out. I'm asking you to formally

designate a safety corridor, fund and construct the complete-streets improvements these highways require, comply with SB 960, and fund real enforcement in the meantime. Below are the specific fixes I stand behind and the decision-makers I'm calling on. SPECIFIC FIXES THIS CORRIDOR NEEDS: All 44 catalogued on the campaign page — the three core asks and every site-specific fix where people have died: <https://safecorridorinitiative.com#ideas> Every month of delay is measured in lives.

SAFE-CORRIDOR PETITION — Highways 35, 84 and 9 —————

To everyone with the power to make these roads safe: The federal crash record counts 47 people killed on Highways 35, 84 and 9 in five years — most in a single, predictable pattern of speed and curve. This can be engineered out. I'm asking you to formally designate a safety corridor, fund and construct the complete-streets improvements these highways require, comply with SB 960, and fund real enforcement in the meantime. Below are the specific fixes I stand behind and the decision-makers I'm calling on.

THE FIXES I'M ASKING FOR:

All 44 catalogued on the campaign page — the three core asks and every site-specific fix where people have died: <https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fsafecorridorinitiative.com%2F%23ideas&data=05%7C02%7Cpubliccomment%40smcta.com%7Ca87c75e501374b7df36108deeea07b55%7C1a34d2f711e24a45b4cd47cee%7C1d21be%7C0%7C0%7C639210570395048780%7CUnknown%7CTWFpbGZsb3d8eyJFbXB0eU1hcGkiOnRydWUsIlYiOiIlwLj>

Please don't wait for the next death to act.

In earnest,

Although I live on the East Bay, I ride frequently on the peninsula, including today. Our society, but especially our transportation system, depends upon trust and that trust has been broken by frequent dangerous driving behavior that cyclists such as Jakob Solovsky experience. Please do something to stop the racing and "hot rodding" along hwys 35, 84 and 9.

A CONSTITUENT PETITION — Highways 35, 84 and 9

To the officials and agencies accountable for these roads: In five years of federal records, Highways 35, 84 and 9 have taken 47 lives — the crashes cluster at the same bends, where speed built on a straightaway meets a curve. I'm one of many neighbors asking you to act: designate a safety corridor, fund and build the complete-streets fixes, comply with SB 960, and bring real enforcement to this corridor now. My supported fixes and the officials I'm addressing follow below.

I'll be watching what your office does with this.

As a cyclist I rarely ride on Skyline or 84 due to car safety concerns. Car speeds on Skyline are completely out of control with no visible enforcement. Adding shoulders where possible would also help.

I vote in Woodside, and this corridor is mine too.

PETITION FOR A SAFE CORRIDOR — Hwy 35, 84 and 9 —————

To the leaders and agencies responsible for Highways 35, 84 and 9: Over the last five years of federal records, 47 people have died on these three mountain roads — again and again in the same way, speed built on a straightaway and lost at the following curve. I'm adding my name to a simple demand: designate this a safety corridor, fund and build the complete-streets fixes the road needs, meet your obligations under SB 960, and put real enforcement out here now. The fixes I support and the officials I'm asking to act are listed below.

Subject: Adding my name: a safe corridor for Hwy 35, 84 and 9

It is a shame how many people have been hurt and killed riding these roads. As a cyclist it scares most of us to cycle on these roads, especially on the weekends. Something has to change to save lives!

Writing as your constituent in Redwood City.

A CONSTITUENT PETITION — Highways 35, 84 and 9

To everyone with the power to make these roads safe: The federal crash record counts 47 people killed on Highways 35, 84 and 9 in five years — most in a single, predictable pattern of speed and curve. This can be engineered out. I'm asking you to formally designate a safety corridor, fund and construct the complete-streets improvements these highways require, comply with SB 960, and fund real enforcement in the meantime. Below are the specific fixes I stand behind and the decision-makers I'm calling on.

THE SPECIFIC FIXES I SUPPORT:

All 44 catalogued on the campaign page — the three core asks and every site-specific fix where people have died: <https://safecorridorinitiative.com#ideas>

Please don't wait for the next death to act.

Subject: Petition from Redwood City: make Hwy 35, 84 & 9 a safety corridor

As a Captain for the Midpeninsula Open Space District, I supervise a staff of 13 rangers that are often the first on scene of these accidents as we spend every day on these roads to patrol all the surrounding open space. Last year, a ranger pulled a motorcycle off a young man and performed CPR, unfortunately he did not live. Just yesterday two of my rangers were first on scene of a motorcycle vs car at Hwy 35 and Page Mill. Young man on the motorcycle was cut off by a car that never saw him. They provided initial care until fire arrived. We write incident reports on these responses and I review far more reports for highway accidents than incidents on our open space properties that we are very busy managing. We also all commute to and from work on these highways and our safety is in danger. From my office on 35 at Alpine/Page Mill, the racing is a constant sound. Cars and motorcycles hitting the straightaway on NB 35 at Page Mill and opening the throttle sounds like Laguna Seca. Please give CHP the resources to patrol these highways regularly. I have also driven 17 my entire life and it used to be similar. Then in the early 2000's you would always see at least 2 patrol cars when crossing between Los Gatos and Santa Cruz. I and many I know even got pulled over and that was enough to stop any speeding I

was tempted to do. Patrol presence works. Word will get out and it will help save lives I live in Redwood City — I'm one of your constituents.

I am an avid cyclist and feel anxious every time I ride on HW9, 84 and 35. I really fear for my life and now try to avoid those roads if I can help it. Something needs to get done in order for all of us to be able to enjoy those roads.

Writing as your constituent in Cupertino.

SAFE-CORRIDOR PETITION — Highways 35, 84 and 9 —————

To our representatives and the agencies that own Highways 35, 84 and 9: Forty-seven people are dead on this corridor in the last five years of federal data — killed, mostly, by the same combination of a long straight and a sharp curve. I refuse to treat that as normal. Please designate a safety corridor, fund and build the complete-streets fixes these roads need, comply with SB 960, and put real enforcement on this corridor now. The fixes I support and the people I'm asking to act are below.

THE FIXES I'M ASKING FOR:

Please take this seriously. I am a senior cyclist riding these roads for 30+ years, even with all the crazy drivers, especially on weekends. It's scary, however the views are amazing. Thank you.

I live in Los Altos — I'm one of your constituents.

PETITION TO MAKE HIGHWAYS 35, 84 AND 9 SAFE _____

To the leaders and agencies responsible for Highways 35, 84 and 9: Over the last five years of federal records, 47 people have died on these three mountain roads — again and again in the same way, speed built on a straightaway and lost at the following curve. I'm adding my name to a simple demand: designate this a safety corridor, fund and build the complete-streets fixes the road needs, meet your obligations under SB 960, and put real enforcement out here now. The fixes I support and the officials I'm asking to act are listed below.

WHAT I'M ASKING YOU TO FUND AND BUILD:

All 44 catalogued on the campaign page — the three core asks and every site-specific fix where people have died:

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fsafecorridorinitiative.com%2F%23ideas&data=05%7C02%7Cpubliccomment%40smcta.com%7C2c8c82511b914ad75bed08deeea8e842%7C1a34d2f711e24a45b4cd47cee b1d21be%7C0%7C0%7C639210606545072684%7CUnknown%7CTWFpbGZsb3d8eyJFbXB0eU1hcGkiOnRydWU%3D%7C%7C%7C&sdata=f2VupSgQibRLjly%2F6HhJtsUAP6gxYUoyTbwGSGI7UbY%3D&reserved=0>

Please tell me what your office will do about it.

Thank you,

I used to enjoy cycling on these roads, but now I avoid even driving them on weekends. The speedsters are completely out of control. I'm also an avid hiker and volunteer with the Midpeninsula Open Space District; several open space hiking routes involve crossing Hwy 9 or Hwy 35 on foot. I was shocked the first time I joined some friends for a Sunday hike at Saratoga Gap OSP almost three years ago - instead of a peaceful walk through the forest (on trails adjacent to Hwy 9), we couldn't even hold a conversation over the engine noise from speeding motorcycles and cars and took our lives in our hands crossing Hwy 9 four times to follow the trails (https://ridewithgps.com/trips/139433184?privacy_code=H7YxBECsOHWCgyotAMehGYZsAKY2SKYj). Consequently, I can't consider visiting these preserves on weekends - and only with great caution on

weekdays.

Please act.
