As a 35 year La Honda resident and cyclist who has ridden the local roads almost daily for the entire time it is clear that this initiative is badly needed. It has overwhelming support in the community. Please help all of us, both those who reside here and who visit, to improve the safety of our roads.

I bike on 84 and 35 regularly, but I am very aware of the fast traffic patterns on 35 during the weekends, and the resultant risk. There have been so many deaths on these roads I have considered retiring my bike. Any meaningful improvement would be very much appreciated

Dear gentle person,

I enjoy many outdoor activities in the Santa Cruz mountains and foothills. Speed belongs on freeways. Country highways and roads allow us to venture into the wilderness. These areas should be respected for the wildlife and people who enjoy visiting nature. Safety in this precious environment should be our priority, so we can relax, worry-free while we enjoy it.

Respectfully,
Dr. Matt Bryant — Palo Alto

To our dedicated public servants and government representatives: Please use your powers for good and make the Skylonda Area more safe for everyone involved. Every resident here has either witnessed many incidences of reckless driving or has already fell victim to some wreckless driver as permitted by the lack of safety infrastructure and oversight in this area. This is a unique area of great natural beauty and responsible recreational opportunities. Month after month, year after year, the traffic accidents leading to injury and death senselessly increase with hardly any action. In addition, these senseless auto accidents can easily result in devastating fires decimating our community and even down to the low lands. Preventing these horrendous events are in your hands. Please do not let allow another death due to poor infrastructure and do not be the reason we lose our forests and mountain slopes to fire. Please take pride in the most beautiful part of our county and do the work it takes to make these streets safe.

In earnest,
Erica Namba — Unincorporated San Mateo County/Woodside/Redwood City Enamba1@gmail.com

Cyclists and pedestrians are in constant danger. Cars protect only the drivers, not the people outside the car. It is far too easy for a motorist to accidentally kill a person. The road design makes a huge difference. Too many lives have been lost, and too many people have had near death experiences, so they never got on a bike again. We can improve this.

I'm a frequent user of these roads and based on my experience, it is one of the least safe yet least trafficked road in the Bay Area. To make sense of this weird fact, you have to simply drive any of these roads to see it for yourself. Due to design on these roads, it is extremely enticing for drivers to use them as their personal drive track. If it matters to you to keep people safe, simply remove this aspect from the roads. There's simply too much at risk to keep things as they are.

In earnest,
MICHEL PEDRENO — San Jose

I ride at least once a week on Page Mill or Old La Honda or Kings Mountain up to Skyline. I ride with a group of others and now we will not ride on Skyline Rd on a weekend because of the speed of cars and motorcycles - drivers who see those roads as high speed entertainment. Please do something to curb the danger that these vehicles present to their own drivers as well as everyone else that enjoys our astonishingly beautiful mountains.

Thanks

I have felt at home in the Santa Cruz mountains for decades as a hiker and especially as a recreational cyclist. The ongoing and unchecked road violence in the area has caused me to modify my behavior a lot. I ride off road a lot more and avoid especially Skyline 35 and especially on weekends. There is no reason to tolerate the lawless and reckless driving that is regularly killing and injuring people on those roads. A cyclist who had watched Jakub Solovsy die was

descending toward me on dirt Alpine and stopped for over ten minutes to tell me about it; he was that shaken. I won't do much more than cross Skyline on weekends. We can and must do better!

Respectfully,
Boris Foelsch — Palo Alto
